

**Do you have  
Mountain Pine  
Beetle trees?**

**TIME IS  
RUNNING  
OUT!**

Check your pines for signs of Mountain Pine Beetle...

- ✓ PITCH TUBES
- ✓ SAWDUST
- ✓ WOODPECKER DAMAGE

97.5% mortality is needed to slow beetle population growth. Mountain Pine Beetle remains a threat to our northern forests.

May 15th is the deadline to notify the South Peace Municipalities of any MPB related concern.

Residents who have had MPB survey conducted must give consent for control.

Residents of the County of Grande Prairie and Grovedale area who wish to have a survey and control done on their property must get in contact with the office before the May 15th deadline.
