

Weed Warriors 2012 Weed Picking Day Checklist

1. Before beginning picking, put signs up at each end of the road you will be cleaning.
2. Get together at the pre-arranged meeting place before starting the picking. Review the safety checklist, safe picking procedures, and **hazard assessment forms.**
3. Make sure the first-aid person has brought the first-aid kit and that everyone knows who the first-aid person is (Amanda or Laura).
4. Establish work crews and assign locations (we will all be going to the same location). Review specific procedures for crossing bridges, railway tracks etc.
5. Remind child participants that they must follow their supervisors instructions at all times.
6. Hand out garbage bags and gloves.
7. After the weed picking day is complete, all participants are to report to a pre-arranged meeting place and return any incident reports if necessary, unused garbage bags and unused gloves to the County of Grande Prairie supervisors.

Have fun!
