

News Release – For Immediate Release Saturday, May 12, 2012

Dunes Fire Under Control

A fire in the Dunes (RR 55/east of Aspen Ridge subdivision) is listed as under control. County Fire Service, along with Sustainable Resource Development, responded to the blaze Saturday afternoon.

Suppression efforts, including air tanker support, were able to quickly contain the fire.

No homes or structures were threatened.

Due to the high number of fires recently, a burn advisory is in effect.

As a result of the advisory, County Fire Service has temporarily stopped issuing burning permits. The suspension will remain in effect until further notice.
