

News Release – For Immediate Release Tuesday, February 5, 2013

New Recycling Depot Now Open in South end of the County

The County has set up recycling bins on the South end of the County in order to create more recycling opportunities for residents and businesses. The recycling bins are located adjacent to Highway 668 and Range Road 60A (Resources Road), neighbouring the Dunes Fire Hall to the east.

“The County is committed to practicing environmental stewardship and minimizing our carbon footprint, so in order to accomplish these goals we are always looking to improve accessibility to recycling services, programs and facilities for our ratepayers,” said Leanne Beaupre, County Reeve.

The South location is one of 14 recycling depots in the County that accepts paper; tin and plastic; flattened cardboard and boxboard; and, glass. A detailed list of recyclable items and instructions on how to separate and dispose of recycled material can be found on www.countygp.ab.ca, then searching “Recycling and Waste Management.”

“If our residents express strong interest in recycling and other services, the County will assess the viability of extending these programs and services to them,” says Steve Madden, County Environment Manager. “

For more information on the County’s various recycling and waste management programs and the recycle bins located throughout the County please visit www.countygp.ab.ca or contact Environment Manager, Steve Madden in the Public Works department at 780-532-7393.
