

Information Bulletin – For Immediate Release Friday, April 26, 2013

County South Recycling Depot moved to temporary location

The County has temporarily moved the South Recycling Depot bins to the northeast side of the Dunes Fire Station yard until further notice in order to allow spring thaw to dry up.

While the bins reside on the north side of the Dunes Fire Station, the County asks that Depot users be aware and stay clear of Emergency Vehicles.

The bins will not be to be moved back to the original location – adjacent to Highway 668 and Range Road 60A (Resources Road), neighbouring the Dunes Fire Hall to the east until further notification.

For more information, please contact Steve Madden, County Environment Manager at 780-532-7393.
