

COUNTY OF GRANDE PRAIRIE No. 1

News Release – For Immediate Release – Tuesday, September 10, 2013

County's New Public Works Building Opens Wednesday

After approximately a year of construction, the County's new Public Works building, home to the Public Works department and System department, opens tomorrow.

"In the last decade the County has experienced exponential growth, both in residential and industrial developments. As a result of this, our staffing requirements continue to rise in order to maintain the level of service our ratepayers deserve," says Leanne Beaupre, County Reeve. "This new building was constructed in order to accommodate current and future employees."

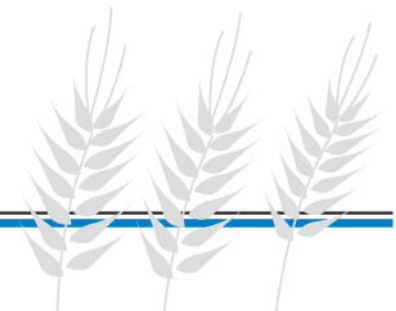

Beginning tomorrow, those with Public Works needs can access Public Works reception through the front entrance of this new building.

Renovations to the Administration Building are well underway. As a result, Council Chambers, the main entrance and the reception in the Administration Building will be inaccessible. Until further notice, the Public Works front entrance will serve as the main reception for the Administration Building. The Public Works Building is located adjacent to the Administration Building.

Until further notice, all regular Council meetings will be held in the Emergency Operations Centre at the County Community Services Building located at 10808-100 Avenue, Clairmont (approximately one mile west of Astro Car Sales off Highway 2 and Township Road 724).

The County would like to thank residents and customers for their patience during this renovation process.

For more information, please contact the Public Works department at 780-532-7393.
