

Traffic Advisory – For Immediate Release Tuesday, August 27, 2019

Upgrades to section of Township Road 730 underway

Contractors have started grading a section of Township Road 730, from Range Road 64 to Range Road 63.

The anticipated completion date of the project is late October, weather dependent.

Grading involves digging out an existing road structure to re-align level or widen the road and building a new road from the bottom up.

Traffic may experience minor delays over the duration of the project. Speed will be reduced in the construction zones. As well, traffic may be reduced to a single alternating lane. Motorists are advised to obey all signs, flag persons, exercise extreme caution when travelling through the site and near crews and equipment and allow extra time for travel.

Please see attached for the project map. The coloured line indicates where the road construction will be taking place.

The County is investing a total of \$31.1 million on capital road and bridge projects this year. New construction this year includes 18.4 km of road surfacing including the paving of gravel roads, surfaced road overlays, and re-construction. For a complete list of roads slated for upgrades this construction season, visit www.countygp.ab.ca/roadconstruction.

The County thanks motorists for their patience and cooperation throughout the construction season.
