

Traffic Advisory – For Immediate Release Thursday, July 25, 2019

Section of Township Road 711 crossing Spring Creek reduced to single lane due to water levels

Township Road 711 between Range Roads 71 and 72 is reduced to a single lane of traffic at 30 km per hour with a maximum vehicle weight of one-tonne, until further notice.

High water levels caused by the recent heavy rainfall have created poor road conditions where the road crosses Spring Creek. Motorists are asked to obey the posted reduced speed signage. The section of road may be closed, depending on conditions.

Heavy traffic is advised to use Highway 40 and Highway 43 as an alternate route. Please see the attached map.

If you encounter an area of the County that requires immediate attention such as roads flooding, washed out or frozen culverts or significant road damage that impedes travel or has a significant risk to safety and property, please contact the Public Works 24-hour Emergency Line at 780-532-7393.

Residents with any non-emergency Public Works related questions and concerns are encouraged to contact Public Works at 780-532-9722 during regular business hours of Monday to Friday 8:30 a.m. to noon and 1 p.m. to 4:30 p.m. excluding holidays.
