

Traffic Advisory – For Immediate Release Monday, June 3, 2019

Capital Road Construction Projects Underway in the County

Starting today, CN Rail will begin base paving work on a 1.9 km section of Township Road 744, east of Range Road 54. The anticipated completion date of the project is mid-June, weather dependent.

Please see attached for the project map. The red circle indicates where the road construction will be taking place. Base paving work on Township Road 744 and Range Road 53 was completed last construction season.

Starting Thursday, June 6, contractors will begin base paving work on Range Road 83, from Highway 59 to Township Road 750. The anticipated completion date of the project is the first week of July, weather dependent. Please see attached for the project map. The red line indicates where the road construction will be taking place.

Base paving work involves removing the top layer of gravel, repairing the base of the road if needed, then packing of the current road surface, and paving a layer of asphalt

Traffic may experience minor delays over the duration of the projects. Speed will be reduced in the construction zones. As well, traffic may be reduced to a single alternating lane. Motorists are advised to obey all signs, flag persons, exercise extreme caution when travelling through the site and near crews and equipment and allow extra time for travel.

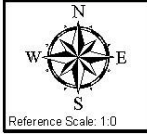

The County is investing a total of \$31.1million on capital road and bridge projects this year. New construction this year includes 18.4 km of road surfacing including the paving of gravel roads, surfaced road overlays, and re-construction. For a complete list of roads slated for upgrades this construction season, visit www.countygp.ab.ca/roadconstruction.

The County thanks motorists for their patience and cooperation throughout the construction season.
