

Traffic Advisory – For Immediate Release Thursday, May 30, 2019

County and Encana Partner to upgrade Township Road 720

The County of Grande Prairie and Encana Corporation are partnering to upgrade a section of Township Road 720, from Range Road 90 to Range Road 92.

Construction work will begin the first week of June. The project is expected to be completed by the end of July, weather dependent.

Signage will be on site throughout the project.

Traffic impacts will include alternating partial and full road closures while the work takes place. Speed will be reduced in the construction zone. Drivers are reminded to obey all signage and exercise extreme caution when travelling through the site, near crews and equipment. Please use alternate routes when possible.

See project map for the location of road construction (orange line), as well as alternate route locations (green lines).

The County of Grande Prairie and Encana thank motorists for their patience and cooperation throughout the construction season.
