SECTION 1: DEFINITIONS AND OPERATIVE CLAUSES

1. REPEAL OF PREVIOUS LAND USE BYLAW

Bylaw #1660 and all amendments thereto are hereby repealed.

2. PURPOSE

The purpose of this Bylaw is to regulate and control the use and development of land and buildings within the County of Grande Prairie.

3. TITLE

This bylaw may be cited as the "County of Grande Prairie No. 1 Land Use Bylaw".

4. DATE OF COMMENCEMENT

- (a) This Bylaw comes into force and effect upon the date it receives third and final reading from Council.
- (b) Schedules "A" (Bylaw Forms) and "B" (District Maps) are deemed to be part of this Bylaw.
- (c) Council may, by resolution, establish agreements, forms and the procedure to be followed relating to any matter covered by this Bylaw including the specifications of any fees to be paid.

5. CERTAIN WORDS

In this Bylaw words in the present tense include future; words in the singular number include the plural, unless specifically prohibited elsewhere in the bylaw; words in the plural include the singular number; and the word "used" includes arranged, designated or intended to be used and the word "shall" is mandatory and shall not be permissive.

6. UNITS OF MEASUREMENTS

All measurements shall be metric. The Imperial standard measurement provided in the Bylaw is approximate and is indicated for convenience purposes only. In the event of any dispute between metric and imperial measurements, the metric measurement will be used.

SECTION 1: DEFINITIONS AND OPERATIVE CLAUSES

7. DEFINITIONS

- (1) “ABATTOIR” means the use of land or buildings as a facility for the slaughtering of animals and the processing of meat products.
- (2) “ACCESSORY” when used to describe a use, building or structure, means a use, building or structure that is incidental, subordinate and exclusively devoted to the principal use or building and located on the same site but does not include a farm building or a garage. It is not a “DWELLING UNIT” unless specifically identified as such in the list of **Permitted** or **Discretionary** uses for the respective land use district.
- (3) “ACT” means the Municipal Government Act, 1994, and amendments thereto and its successors.
- (4) “ADJACENT” means land that is contiguous to the lot that is the subject of an application for subdivision, re-designation or development and includes land or a portion of land that would be contiguous if not for a public road, railway, reserve land, utility right-of-way, river or stream.
- (5) “AGGREGATE FACILITY” means any pit or excavation made for the purpose of searching for, or the removal of any soil, earth, clay, marl, sand, gravel or rock for commercial purposes but shall not include an excavation incidental to the erection of a building or structure for which a building permit has been granted by the County (or its assigns), or an excavation incidental to the construction of any public works. Also see “RESOURCE EXTRACTION OPERATION”, “AGGREGATE STOCKPILING”, and “AGGREGATE STORAGE AREA”.
- (6) “AGGREGATE FACILITY, TEMPORARY” means any temporary pit, borrow pit, or excavation opened and used solely for the purpose of a particular project or contract of road construction and not located on the road right-of-way. It does not include a “Resource Extraction Operation”.
- (7) “AGGREGATE STOCKPILING” means the use of land for the storage of processed aggregates or other raw materials for future sale.
- (8) “AGGREGATE STOCKPILING, TEMPORARY” means the temporary use of land for the storage of processed aggregates or other raw materials for a particular project or contract of road construction.
- (9) “AGGREGATE STORAGE AREA” means the use of land for the temporary storage of aggregates for sale or use in the production of cement or asphalt.

SECTION 1: DEFINITIONS AND OPERATIVE CLAUSES

- (10) "AGRICULTURAL INDUSTRY" means the use of land and buildings for a non-agricultural pursuit that is intended to provide off farm income for the farming family. The use is incidental or subordinate to the principal use of the land for agricultural purposes. Agricultural industries are larger than Home Occupations, Agricultural and may involve the employment of non-family members in the business to a maximum of 8 employees. This use does not include "CANNABIS RETAIL SALES" or "CANNABIS PRODUCTION AND DISTRIBUTION". Also see "AGRICULTURAL PROCESSING" for more than 2 employees.
- (11) "AGRICULTURAL MACHINERY/EQUIPMENT SALES AND SERVICE" means the selling and service of agricultural machinery and equipment such as farm implements and supplies, and may include sales, repairs, storage, rentals, leasing, and service of such equipment, as well as offices, showrooms, and sales rooms. This includes "Dairy Industry Equipment", "Farmyard Maintenance Equipment", "Farm Machinery or Implements Sales and Service", "Farm Implement Dealerships", "Grain Bins Sales and Storage", Granaries Sales, Storage and Assembly", and "Irrigation Equipment Sales and Storage".
- (12) "AGRICULTURAL OPERATION(S)" means an agricultural activity conducted on agricultural land for gain or reward or in the hope or expectation of gain or reward, and includes
- (a) the cultivation of land
 - (b) the raising of livestock (but excluding 'Confined Feeding Operations'), including game production animals with the meaning of the Livestock Industry Diversification Act and poultry, with the exception that the raising or keeping of wild boar is prohibited.

SECTION 2: ADMINISTRATIVE

- (xv) any additional information the Development Authority deems necessary in order to evaluate the application.
- (g) Development permit applications for signs shall include:
 - (i) drawings that provide the dimensions, area, material, finishes, colours, size of lettering, wording and graphics, method of illumination, and mounting or erection details;
 - (ii) drawings or photos which show the location and separation distances between all existing and proposed signs.
 - (iii) The estimated cost of the project;
 - (iv) Any topographical features and the extent of existing treed areas shall be indicated on the site plan together with an indication of the trees proposed to be removed in the course of development;
 - (v) Any studies required to evaluate the proposal;
 - (vi) A Real Property Report to verify the location of an existing building or buildings that is the subject of a development permit application; and
- (h) For Natural Resource Extraction Industries, the proponent shall, in addition to the requirements identified elsewhere in the Bylaw, submit with the application the following:
 - (i) site diagrams showing topography and drainage patterns;
 - (ii) purpose of extraction;
 - (iii) written details regarding the development and operation of the pit, including the estimated length of time for use of the site, the extent of the excavation proposed, stockpiles (type and location), and types of activities proposed (excavation, crushing, stockpiling);
 - (iv) a written plan detailing the methods proposed to mitigate the impacts of noise, dust and other emissions;
 - (v) written details of projected hauling operations including hours of operation, number of trucks, proposed routes, dust control methods, road maintenance, and signs;

SECTION 2: ADMINISTRATIVE

- (vi) reclamation plans;
 - (vii) capability of the site for agriculture and recreation;
 - (viii) impact on critical wildlife and fish habitat; and
 - (ix) other information as may be required by the Development Authority.
- (i) For all uses, such additional information as the Development Authority deems necessary in order to evaluate any application in accordance with this By-law. This additional information may include, but is not limited to the following:
- (i) location and size of existing trees;
 - (ii) a report from a qualified consultant regarding the provision, availability, and suitability of potable water on or to the land to be subdivided, as per Alberta Environment guidelines;
 - (iii) report from a qualified consultant regarding the nature of sewage effluents likely to come from the proposed development and proposed method(s) of treatment;
 - (iv) a geo-technical or floodplain study prepared by a qualified engineer recognized by APEGGA if, in the opinion of the Development Authority, the site is potentially hazardous or unstable;
 - (v) a reclamation plan for aggregate extraction or other major surface disturbance;
 - (vi) a level one and/or level two environmental site assessment, conducted according to Canadian Standards Association (CSA) guidelines, to determine potential contamination and mitigation;
 - (vii) an environmental impact assessment prepared by a qualified professional if the proposed development may, in the opinion of the Development Authority, result in potentially significant environmental effects,
 - (viii) traffic impact analysis prepared by a qualified engineer recognized by APEGGA as specializing in Transportation Engineering;
 - (ix) such other plans, photographs or other documents or information of any kind that the Development Authority may consider necessary to properly evaluate the proposed development, including, but not limited to:

SECTION 2: ADMINISTRATIVE

- a. building plans, showing floor plans, elevations and exterior finishing materials;
- b. the number of employees anticipated to be working on site;
- c. transportation methods and routes proposed to move goods to and from the proposed development; and
- d. rationale for choosing the proposed location rather than other potential sites.

8. WAIVER OF INFORMATION REQUIREMENTS

The Development Officer may deal with an application for any use and make a decision thereon without all the information required by Subsection 7 if, in the opinion of the Development Officer, a decision on the application can be properly made without such information.

9. DEVELOPMENT REFERRALS

- (a) The Development Authority may refer to any adjacent municipality or government agency, for consideration and recommendation on any matter or any application for a development permit.
- (b) The Development Authority shall refer those Discretionary Uses with “MPC” following the use as listed under each Land Use District and those Discretionary and Permitted Uses that require significant waivers (as determined by the Development Authority), to adjacent landowners and may refer these applications to other nearby landowners, at the discretion of the Development Authority. As well, any other application may be referred to adjacent landowners or any other landowner within 100 metres of the boundaries of the land subject to the application, at the discretion of the Development Authority. This requirement may be waived if the applicant has demonstrated to the satisfaction of the Development Authority that those potentially impacted have no objections.
- (c) Having received a reply on a matter referred to any adjacent municipality, landowner or government agency, the Development Authority may make a decision giving due consideration to the aforesaid recommendations.

10. INCOMPLETE APPLICATIONS

The Development Officer shall return an application for a development permit to an applicant where sufficient details of the proposed development have not been

SECTION 2: ADMINISTRATIVE

included with the application. The application so returned shall be deemed not to have been complete in its final form, and therefore not received, until all required details have been submitted to the Development Officer.

11. DEVELOPMENT PERMIT DECISIONS

(a) Permitted Uses

In making a decision for a use listed under the "Permitted Uses" column in that district the Development Officer(s):

- (i) may approve the application if the use does not otherwise conform with the Bylaw subject to conditions necessary to ensure conformity;
- (ii) shall approve the application upon the use conforming with the Bylaw; and
- (iii) may establish and attach conditions in accordance with Section 2(14) of this Bylaw.

(b) Discretionary Uses

In making a decision on an application for the use listed under the "Discretionary Uses" column in that District the Development Officer(s):

- (i) may approve the application unconditionally; or
- (ii) may approve the application subject to conditions in accordance with Section 2(14) of this Bylaw; or
- (iii) may refuse the application with the reasons specified; or
- (iv) may refer any applications in the "Discretionary Uses" column to the Municipal Planning Commission.

12. VARIANCE POWERS

(a) Uses

Where a proposed specific use of land or a building is not provided for in any district in the Land Use Bylaw, the Development Authority may determine that such use is similar in character and purpose to a use listed under the "Permitted Uses" or "Discretionary Uses" columns in the Agricultural district and may issue a development permit with or without conditions.

SECTION 2: ADMINISTRATIVE

(b) District Requirements

- (i) In the Agricultural District, the Development Authority may vary any or all of the district requirements provided such a variance will not unduly affect the amenities, use or enjoyment of the site or the neighbouring properties and provided such a variance is not applied to allow for creation of a new lot (except for farmsteads in a quarter section), and provided such a variance does not conflict with the Subdivision and Development Regulations;
- (ii) In all other districts, the Development Authority may vary any or all of the district requirements. The variance shall not unduly affect the amenities, use or enjoyment of the site or neighbouring properties and shall not conflict with the Subdivision and Development Regulations;
- (iii) Notwithstanding this, no variation in the district standards will be allowed from the minimum separation distances for sanitary landfills, or wastewater treatment facilities.

(c) Subdivision

Where the subdivision of land involves farmsteads, the Subdivision Authority may vary the maximum parcel size and any minimum lot width or minimum setback requirement provided such a variance shall not unduly interfere with the amenities of the neighbourhood, or materially interfere with or affect the use, enjoyment or value of the neighbouring properties and provided the proposed subdivision conforms with the use prescribed for that land in the Land Use By-law. The variance shall not conflict with the Subdivision and Development Regulations.

(d) Real Property Reports

As part of the authority given to the Development Officer to process Real Property Reports (RPR), the Development Officer may sign an RPR when the District Requirements are not met, provided that the variance required is a distance and is no more than 0.15 metres.

13. PUBLIC NOTIFICATION - DEVELOPMENT PERMITS

- (a) When an application for a development permit is approved, the following procedure may be used for notification purposes:
 - (i) All notices must contain the location or legal description of the property for which the application has been approved, a description of the approved use, and the procedure for any appeals;

SECTION 2: ADMINISTRATIVE

- (ii) For a Permitted Use where all of the requirements of the district have been complied with, the Development Officer may post a notice in the County Administration office and provide to the applicant or his agent written notice of the approval;
 - (iii) For all other development permits the Development Officer may publish a notice in a newspaper circulating in the municipality, and may:
 - a. notify the applicant or his agent by sending them, by regular mail, a written copy of the decision;
 - b. in the case of a development permit application which has been circulated to other landowners for comment, notify in writing the same landowners of the decision;
 - c. notify in writing any other person the Development Officer feels may be affected by the issuance of the permit, and
 - d. notify in writing an adjacent municipality when required under the provisions of an Inter-Municipal Development Plan.
 - (iv) The Development Officer may require that a notice be posted on the property stating the location of the property for which the application has been made, the proposed use and development approved.
 - (v) The Development Officer may post development permit decisions on the County's web site.
- (b) When an application for a development permit is refused, the Development Officer shall mail a notice of decision in writing, to the applicant or his agent stating the reasons for refusal.

14. ADMINISTRATION OF CONDITIONS FOR DEVELOPMENT PERMITS

- (a) The Development Authority may require, with respect to a development that, as a condition of issuing a development permit, the applicant enters into a development agreement with the Municipality to carry out all or any of those provisions as described in the Municipal Government Act and its successors and in Section 3(1) of this Bylaw.
- (b) Where the development of land involves a subdivision of land, a development permit may not be issued until the Development Authority receives evidence

SECTION 2: ADMINISTRATIVE

that the necessary subdivision is registered in the appropriate Land Titles office.

- (c) Where certain works are required or conditions are imposed against a lot or parcel due to a decision by the Subdivision Authority acting within the jurisdiction of the Subdivision & Development Regulations, no permit shall be issued until the works or conditions have been complied with or until a developer's agreement for specific performance is in existence between the developer and the Municipality.

15. TIME LIMITS

- (a) The Development Authority shall consider and decide on an application for a development permit within forty (40) days of the receipt of the application in its complete and final form.
- (b) Notwithstanding the above paragraph, an application shall, at the option of the applicant, be deemed refused when a decision is not made within forty (40) days of the receipt of the application in its complete and final form.
- (c) If a decision is not made within the forty (40) days, the applicant may enter into an agreement with the Development Officer to extend the forty (40) day period (see Schedule "A", Form "E" attached to this Bylaw).
- (d) When, in the opinion of the Development Officer, satisfactory arrangements have not been made by a developer for the supply of water, electrical power, sewage, street access or rural road access, or any of them, including payment of the costs of installation or construction, the Development Officer shall refuse to issue a development permit.
- (e) When an application for a development permit has been refused pursuant to this Bylaw or ultimately after appeal, the submission of another application for a development permit or for a change in land use designation on the same parcel of land and for the same or a similar use of the land by the

same or any other applicant shall not be accepted by the Development Authority for at least six (6) months after the date of refusal.

- (f) Unless a development permit is issued for a permitted use that conforms to the District Requirements, a development permit is not effective until the relevant appeal period as outlined in the Act has lapsed and provided no appeal is lodged with the Subdivision and Development Appeal Board.
- (g) When an appeal is made with respect to a development permit approved by

SECTION 2: ADMINISTRATIVE

the Development Authority, the development permit that has been issued shall not come into effect until the appeal has been determined, at which time the permit may be modified or nullified thereby.

- (h) A development permit becomes void twelve (12) months from the date of approval if the development has not commenced. The Development Authority may approve an extension, not to exceed six (6) months. Those portions of the development that are incomplete twenty-four (24) months from the date of approval shall be deemed to be no longer approved for development and the relevant sections of the development permit shall become void.

16. COMPLIANCE WITH DEVELOPMENT PERMITS

Unless otherwise specified in the Development Permit, a proponent of development shall obtain a Compliance Certificate (see Schedule “A”, Form “D”) from the County of Grande Prairie Planning Department prior to occupancy and use of property as approved in the Development Permit.

At the discretion of the Development Authority, occupancy may be denied should there be a lack of compliance with the approved Development Permit. However, should the proponent of development have a Development Agreement, pay a deposit, or provide the County with a Letter of Credit, any one of which must give the County the security needed to ensure the works required by the Development Permit can and will be completed, then occupancy may be permitted. Occupancy may also be denied if the Building Inspector does not issue a “clean inspection report” for the building.

A compliance certificate and occupancy permit may not be required for all forms of development in the County, but will be identified as specific conditions in the Development Permit.

17. ENFORCEMENT AND PENALTIES

- (a) Where a Development Officer or Municipal Planning Commission finds that a development or use of land or buildings is not in accordance with the Municipal Government Act, the Subdivision and Development Regulation, a development permit or subdivision approval, or this Bylaw, the Development Officer shall issue a warning letter to the registered owner or the person in possession of the land or buildings or the person responsible for the contravention indicating the violations and instructions to remedy the situation.
- (b) Should the warning be unsuccessful, the Development Officer will then issue a written notice (Stop Order) that orders the registered owner or the person in

SECTION 2: ADMINISTRATIVE

possession of the land or buildings or the person responsible for the contravention or all or any of them to:

- (i) stop the development or use of the land or buildings in whole or in part as directed by the notice; or
- (ii) demolish, remove, or replace the development; or
- (iii) take such other measures as are specified in the notice so that the development or use of the land or buildings is in accordance with the Act, the Subdivision and Development Regulation, a development permit or subdivision approval, or this Bylaw, as the case may be,

within the time set out in the notice.

- (c) A person who receives a notice pursuant to subsection 2(17)(b) may appeal the order to the Subdivision and Development Appeal Board, in accordance with the Municipal Government Act and its successors.
- (d) The County may register a caveat under the Land Titles Act in respect of the Stop Order against the certificate of title for the land that is the subject of the Stop Order. The County shall discharge the caveat when the Stop Order has been complied with.
- (e) The Development Officer may cause an application to be made to the Alberta Court of Appeal for an injunction restraining the contravention or non-compliance.
- (f) The costs thus incurred shall be placed on the tax roll as an additional tax against the property.

18. PENALTY

Any person who does not comply with this Bylaw is guilty of an offence and is liable upon conviction to the penalties identified in the Municipal Government Act or its successors.

19. AMENDING THE BYLAW

- (a) Any person may apply to amend this Bylaw by making an application for amendment and submitting it to the Planning Department for processing and referral to Council.
- (b) All amendments to this Bylaw shall be made pursuant to the Municipal Government Act.

SECTION 2: ADMINISTRATIVE

- (c) A Land Use Bylaw amendment application shall be made to the County on the prescribed form, and shall be signed by the applicant or their agent authorized in writing. The following information and documents will accompany the application, unless otherwise specified by the Development Authority:
- (i) a statement of the specific amendment requested;
 - (ii) an application fee as prescribed by County Council;
 - (iii) if the amendment involves the rezoning of land to a different land use district:
 - a. a copy of any documentation satisfactory to the Development Authority verifying that the applicant has a legal interest in the land;
 - b. if the applicant is an agent of the landowner, a letter from the landowner verifying the agent's authority to make the application;
 - c. an air photo of the subject land at a scale of no less than 1:5000;
 - d. a properly scaled and dimensioned map or plan of subdivision showing:
 - the location, dimensions, and boundaries of the affected site, and its relationship to existing land uses on adjacent properties;
 - the dimensions and boundaries of existing rights-of-way of each public utility or other rights-of-way (i.e.: roads, pipelines, railways, etc.);
 - the location, use and dimension of buildings on the land and specifying those buildings that are proposed to be demolished or moved;
 - the location or surveyed boundaries of the bed and shore of any river, stream, watercourse, lake or other body of water that is contained within or bounds the proposed parcel of land, including the top of bank;
 - the location of any existing or proposed wells, the location and type of any private sewage disposal system and the distance from these to existing or proposed buildings and property lines;
 - the location of existing and proposed accesses to the

SECTION 2: ADMINISTRATIVE

- property;
 - the location of any sour gas facilities situated within 1.5 km of the proposed rezoning;
 - the location of any sanitary landfill, hazardous waste management facility, or dry waste facility situated within 450 metres of the proposed rezoning;
 - the location of any operating wastewater treatment plant situated within 300 metres of the proposed rezoning;
 - the scale of the plan or map; and,
 - a key map showing the location of the property within the County.
- e. if the proposed amendment is solely for a change in text, the requirements of (d) above do not apply.
- (iv) a description of the use or uses proposed for the land that is the subject of the application;
- (v) information respecting the land use and land surface characteristics of land within 0.8 kilometres of the land proposed to be rezoned;
- (vi) if the land is located in a potential floodplain and floodplain mapping is available, a map showing the 1 in 100 year flood;
- (vii) a statement of the purpose and reasons for the application to amend the Bylaw;
- (viii) if the application is intended to accommodate a subdivision proposal, a copy of the tentative or draft plan of subdivision is required showing:
- a. the dimensions and boundaries of each new lot to be created and any reserve land and this information will also be overlaid on an air photo of the subject land at a scale of no less than 1:5000;
 - b. the location, use and dimension of buildings on the land and specifying those buildings that are proposed to be demolished or moved;
 - c. the location of existing and proposed access to the proposed parcels and the remainder of the titles area;
 - d. the location(s) of any sour gas facility situated within 1.5 km of

SECTION 2: ADMINISTRATIVE

the proposed subdivision;

- e. the location of any sanitary landfill, modified sanitary landfill, hazardous waste management facility, or dry waste facility situated within 450 metres of the proposed subdivision; and
- f. if any portion of the land affected by the proposed subdivision is situated within 300 metres of the working area of an operating wastewater treatment plant, a map showing the location of the treatment plant.

(ix) for multi-lot subdivisions of six lots or more or for subdivisions that create the sixth lot or more on any one quarter section, the County will require additional more detailed information including, but not limited to:

- a. a map of the land to be re-zoned that shows topographic contours at not greater than 1.5 metre intervals and related to the geodetic datum, where practical;
- b. a report from a qualified consultant regarding the provision, availability, and suitability of potable water on or to the land to be subdivided, as per Alberta Environment guidelines;
- c. a Storm Water Drainage Plan, including plans for storm water management, if needed;
- d. an assessment of subsurface characteristics of the land that is to be subdivided including, but not limited to, susceptibility to slumping or subsidence, depth to water table and suitability for

any proposed on-site sewage disposal system, as per Alberta Environment guidelines;

- e. a report from a qualified consultant providing information respecting the intended method of providing sewage disposal facilities to each lot in the proposed subdivision (i.e. the area being re-zoned);
- f. a plan indicating potential, suitable building sites;
- g. a conceptual scheme that relates the application to future subdivision and development of adjacent areas; and,
- h. a traffic impact analysis prepared by a qualified engineer

SECTION 2: ADMINISTRATIVE

recognized by APEGGA as specializing in Transportation Engineering.

- (x) such additional information as the Development Authority or referral agencies may request, including, but not limited to reports and studies such as a historical impact analysis and an environmental impact analysis.
- (d) Upon receipt of an application, in its complete and final form, for amendment to this Bylaw, the Development Officer shall determine when the application will be placed before the Council and shall issue not less than ten days notice to the applicant advising that they may appear before the Council at that time and speak to the application.
- (e) Council may require, prior to considering a proposed amendment to this Bylaw, that an Area Structure Plan be prepared or amended in accordance with the Act or an Outline Plan be prepared in accordance with the Municipal Development Plan. The Area Structure Plan or Outline Plan shall address all those issues considered necessary for the proper consideration of development within the area covered by the Area Structure Plan or Outline Plan.
- (f) Council, after due consideration to an application received pursuant to subsections (a) – (e) above, may prior to second reading:
 - (i) establish the date, time and place for a public hearing on the proposed Bylaw;
 - (ii) outline the procedure to be followed by anyone wishing to be heard at the public hearing;
 - (iii) outline the procedure by which the public hearing will be conducted;
 - (iv) follow other procedures for public hearing as outlined in the Act; and
 - (v) may expand the notification procedures and provisions beyond those outlined in the Act.
- (g) The Council, after considering:
 - (i) any representations made at the public hearing;
 - (ii) any Municipal Development Plan, area structure plan, area redevelopment plan, area management plan, intermunicipal

SECTION 2: ADMINISTRATIVE

development plan affecting the application and the provisions of this Bylaw;

may:

- (i) make such amendments or changes as is considered necessary to the proposed Bylaw, if any, and proceed to pass the proposed Bylaw, or
 - (ii) defeat the proposed Bylaw.
- (h) Council may, at any time, initiate an amendment to this Bylaw by directing the Development Officer to initiate such an application. The Council, on its own initiative, may give first reading to a Bylaw to amend this Bylaw.

20. OUTSTANDING APPLICATIONS

Notwithstanding anything else in this Bylaw, any subdivision application or development permit application, except an application for a permit extension or renewal, received prior to the third and final reading of this Bylaw shall be processed under the provisions of Bylaw #1660.

21. FORMS AND NOTICES

For the purpose of administering the provisions of this Bylaw, Council may, by resolution, authorize the preparation and use of such forms and notices as in its discretion it may deem necessary. All forms or notices as contained in Schedule "A" is deemed to have the full force and effect of this Bylaw in execution of the purpose for which they were designed, authorized, and issued.

The forms and notices authorized by Council pursuant to this Bylaw may be posted, issued, served or delivered (in the course of his or her duties) by an official of the Municipality.

In addition to the specific district requirements in each district the following General Land Use Provisions shall apply to all developments.

SECTION 3: GENERAL PROVISIONS FOR ALL DISTRICTS

1. GENERAL DEVELOPMENT REGULATIONS

- (a) The Development Authority may request and consider with respect to land that is the subject of an application for a development permit:
- (i) its topography;
 - (ii) its soil characteristics;
 - (iii) adjacent land uses;
 - (iv) the collection and disposal of storm water from the land;
 - (v) its potential for flooding, subsidence or erosion;
 - (vi) its accessibility to a public roadway or highway, constructed to appropriate municipal or provincial standards;
 - (vii) the distances between proposed driveways and existing driveways, and distances between proposed driveways and existing roadway intersections;
 - (viii) the availability and adequacy of a potable water supply;
 - (ix) the adequacy of a sewage disposal system and the disposal of solid waste;
 - (x) the availability or adequacy of municipal services, which, without restricting the generality of the foregoing, may include fire protection, education services, student transportation, and police protection;
 - (xi) the need to maintain an adequate separation distance between different or incompatible land uses. The separation distance shall be as prescribed by the Development Authority recognizing the type and magnitude of both the development and surrounding land uses;
 - (xii) the proposed residential density;
 - (xiii) provision for proposed utilities;
 - (xiv) details for proposed signs;
 - (xv) proximity to environmentally sensitive areas;
 - (xvi) an environmental impact assessment;
 - (xvii) a site grading plan;
 - (xviii) proposed landscaping;
 - (xix) proposed parking and loading areas;
 - (xx) detailed geo-technical engineering studies; and
 - (xxi) such other matters as the Development Authority deems appropriate.
- (b) The Development Authority may attach conditions to a development permit to require the developer and/or development to:
- (i) adhere to the relevant standards for the subject district and associated general regulations as provided by this By-law;
 - (ii) obtain a building permit or other permits pursuant to the requirements

SECTION 3: GENERAL PROVISIONS FOR ALL DISTRICTS

- of the Safety Codes Act;
- (iii) obtain any additional and necessary permits or approvals from appropriate federal or provincial departments or agencies;
- (iv) take actions or measures to ensure that the development will comply with this By-law and, if necessary, other statutes;
- (v) provide an engineer's report and/or environmental impact assessment to certify a suitable building site for the proposed development;
- (vi) address the quality of exterior treatment and design of buildings;
- (vii) carry out any necessary landscaping and/or drainage;
- (viii) locate the development according to certain standards;
- (ix) take actions or measures to mitigate the concerns of adjacent landowners;
- (x) take actions or measures to mitigate an increase in the amount and/or type of traffic generated by the proposed development;
- (xi) control the location and amount of goods, materials and any other items stored on a site;
- (xii) construct or pay for the construction of roads required to give access to the development;
- (xiii) maintain or pay for the maintenance of roads required to give access to the development which may include the requirement for an industrial haul agreement;
- (xiv) install or to pay for the installation of utilities needed to service the proposed development;
- (xv) pay a local improvement charge, an off-site levy or a redevelopment levy where such charge is established by By-law;
- (xvi) provide security to ensure that the conditions of the permit are carried out;
- (xvii) with respect to signs, govern the size and location of the sign and the length of time it is to remain in place;
- (xviii) enter into a development agreement with the County that may include any or all of the conditions listed above; and
- (xix) any other conditions to ensure that the Act and Regulations, any statutory plan and this By-law affecting the land proposed to be developed are complied with.

(c) Permitted Encroachments

The following features may project into the required yard setbacks under this by-law:

- (i) eaves, unenclosed steps, chimneys, belt courses, cantilevers and any other similar architectural feature provided that such projections do not exceed the following:

SECTION 3: GENERAL PROVISIONS FOR ALL DISTRICTS

- a. 0.6 metres into a required side yard setback of 1.2 metres – 2.99 metres; or
 - b. 1.2 metres into a required yard setback of 3 metres or greater.
- (ii) at the discretion of the Development Authority, a deck may encroach into any required yard where the deck is designed to accommodate access to a dwelling unit for a disabled person. Such a deck will be permitted on a temporary basis and shall be removed when no longer required to provide access for a disabled person.
 - (iii) fish ponds, ornaments, flagpoles (less than 4.6 metres {15 feet} in height) or similar landscaping features, and decks less than 0.61 metres (2 feet) in height (measured from the finished grade to the underside of the supporting structure).
 - (iv) All fences may be located within the required yard setbacks unless specifically prohibited by the conditions of a development permit.
- (d) Rounding Exceptions

Discrepancies in measured distances due to rounding as part of a conversion calculation from imperial measure to metric measure or vice versa, shall be resolved by relying on the metric distance, and this may be rounded to one decimal place.

2. UNDERSIZED LOTS

- (a) No permit shall be issued for any development on a site, the area or width of which is less than the minimum prescribed for the district in which the site is located, except that a lot of separate record in the Land Titles Office containing less than the minimum area or width specified for the district may be used subject to the discretion of the Development Authority if all other requirements of the Bylaw are observed.
- (b) When two or more contiguous substandard lots are contained in the same Certificate of Title an application for development on one of them may not be considered unless or until a consolidation of the said lots has been carried out in such a way as to create one or more lots which do meet minimum standards of width, depth and acreage.

3. PARCEL DENSITY

Notwithstanding anything else in this Bylaw, a lot with a separate Certificate of Title at the time of third reading of this Bylaw, which may exceed the permitted parcel

SECTION 3: GENERAL PROVISIONS FOR ALL DISTRICTS

density within that district, may be permitted a development permit for one or more of the uses allowed within the district provided that all other district requirements can be met.

4. DWELLING UNITS PER PARCEL

- (a) No person shall construct or locate or cause to be constructed or located more than one dwelling unit on a lot unless provided for in this bylaw (e.g. multiple unit buildings are identified as specific uses within certain districts and can therefore be approved without reference to this section).
- (b) The Development Authority may, in a development permit, exempt any person or land from the operation of subsection (a), if the parcel has sufficient land area to support a second dwelling unit (e.g. for building setbacks and sewage and water service) and if any one of the following apply:
 - (i) The parcel is zoned Agricultural (AG) and a maximum of two single detached dwellings are proposed (NOTE: clustered farm dwellings are discretionary uses in the AG District and are therefore exempt from (a)); or,
 - (ii) In all residential districts, a second dwelling unit may be considered for temporary approval based on compassionate reasons such as financial hardship, special health needs, and age related needs.
- (c) Temporary approval of a second dwelling unit in a new building is prohibited unless as a condition of approval, the dwelling is placed on a temporary base or foundation from which it can easily and quickly be moved, and provided the temporary approval has accounted for Sections 3(8) and 3(23) (Manufactured Homes) of this Bylaw.

5. MAIN BUILDING PER LOT

No person shall construct or cause to be constructed, more than one main building per lot unless authorized by the Development Authority. In addition, no person shall construct, or cause to be constructed, an accessory building in excess of 100 m² on a residential lot unless the main residential building is constructed prior to, or at the time of, construction of the accessory building.

6. GARAGES

Unless otherwise specified in this by-law, garages shall be limited to one per lot.

7. ACCESSORY USES, BUILDINGS AND STRUCTURES

- (a) For the purpose of calculating yard setbacks and site coverage requirements,

SECTION 3: GENERAL PROVISIONS FOR ALL DISTRICTS

when an accessory building or structure is attached to the principal building on a site by a roof, an open or enclosed structure, a floor or a foundation, it is to be considered a part of the principal building and not as an accessory building.

- (b) Any accessory building or structure, except a deck or fence, shall be located at least 1.8 metres (6 feet) from any principal building.
- (c) All accessory buildings and structures, except fences, shall adhere to the minimum setback requirements in each district unless otherwise specified as a special regulation. A fence may have no setback from a property line unless setbacks are specifically required in the development permit. If a fence is to be shared by two property owners, a joint application is required.
- (d) In all residential districts, a swimming pool shall be considered an accessory use. In all other districts, a swimming pool is a recreation facility or accessory recreation facility (use/structure), subject to the context of the application and as determined by the Development Authority.
- (e) Two accessory buildings or structures per residential lot that are less than 10 m² (108 ft.²) in area and not permanently attached to the ground shall be permitted by this By-law without a Development Permit.
- (f) In all residential districts, the maximum number of accessory buildings or structures permitted per lot shall be two (2), plus one garage (Section 3(6)) and two small (under 10 m²) accessory buildings as described in Section 2(6)(k) and 3(7)(e) above. Buildings or structures associated with a Major or Minor Agricultural Pursuit may be permitted in addition to this maximum at the discretion of the Development Authority.
- (g) Fences, decks, stairs and other similar structures are excluded from the calculation described above in Section 3(7)(f).

8. TEMPORARY USES, BUILDINGS, AND STRUCTURES

- (a) Temporary uses, buildings, or structures may be permitted in all Districts at the discretion of the Development Authority, provided that temporary buildings or structures are not placed on permanent foundations and provided that the use, building or structure is listed as either a permitted or discretionary use in the relevant land use district.
- (b) A show home used for the purposes of sales and marketing of new homes may be approved as a temporary use of a permanent building in all residential districts, provided the show home is constructed as an approved dwelling unit ultimately intended for residential occupancy.

SECTION 3: GENERAL PROVISIONS FOR ALL DISTRICTS

- (c) Except as noted in Section 3(23) of this Bylaw, temporary uses, buildings, or structures may be approved for a period of up to five (5) years. Renewal of these approvals may be permitted but such renewals shall not extend the total length of a temporary approval beyond ten (10) years.
- (d) Temporary approval of a second dwelling unit is prohibited unless as a condition of approval, the dwelling is placed on a temporary base or foundation from which it can easily and quickly be moved, and provided the temporary approval is in accordance with Sections 3(4) and 3(23) (Manufactured Homes) of this Bylaw.
- (e) Where a person proposes to extend the temporary period beyond the time set out in the permit, he shall, not later than sixty days prior to the day on which the development permit will cease to be in effect, make written application to the Development Authority for renewal of the permit setting forth the reasons therefore. If an application for renewal is submitted after this date, the application shall be refused and a new application must be submitted, but any approval of such an application, and any subsequent renewal applications, shall be treated as though the original application had been properly renewed.

9. UTILITIES

The erection of a building on any site where it would otherwise be permitted under this Bylaw shall be prohibited when, in the opinion of the Development Authority, satisfactory arrangements have not been made by the developer for the supply to the building of water, electric power, sewage and street access, or any of them, including payment of the costs of installing or constructing any such utility or facility by the developer.

10. LANDS SUBJECT TO FLOODING OR SUBSIDENCE

Development on land that is subject to flooding or subsidence or that is marshy shall not be allowed.

11. DEVELOPMENT NEAR WATERBODIES, WATERCOURSES AND TRUMPETER SWAN HABITAT

- (a) Where a parcel of land borders on or contains a watercourse, the following setbacks from the high water mark of the watercourse shall apply:

Depth of the Watercourse	Minimum Building or Structure Setback
less than 3 m	At the discretion of the Development Authority
between 3m and 15 m	22 m
greater than 15 m less than 30 m	44 m
greater than 30 m	60 m

SECTION 3: GENERAL PROVISIONS FOR ALL DISTRICTS

- (b) Except in the cases of permitted uses, the Development Authority may increase the building or structure setbacks where deemed necessary.
- (c) If a parcel of land borders on or contains a waterbody identified as a Trumpeter Swan habitat, the Development Authority shall determine the specific setbacks from the waterbody.
- (d) Development shall not be permitted on public lands located within Trumpeter Swan Habitat.
- (e) Development shall not be permitted when construction, earth moving, or the placement of fill in Trumpeter Swan Habitat is required or proposed in order to create private or public access to such development.

12. SETBACK FROM BEAR CREEK

Notwithstanding the provisions of Section 3.9.1, development may be allowed on any lot abutting the Bear Creek if an engineering report detailing foundation design is provided to, and approved by, the County prior to beginning construction, and provided construction proceeds in accordance with the approved engineering report.

13. TRANSPORTATION AND MUNICIPAL ROAD STANDARDS

- (a) All municipal roads and internal subdivision roads shall 30 metres in width. The subdivision of land for any purpose will not be allowed unless the minimum road standard has been met.
- (b) Separation between roadway intersections on all County arterial roads shall be no less than 300 metres.
- (c) Unless otherwise approved by the County of Grande Prairie Public Works Superintendent, access to or from a municipal road shall not be permitted where it would be:
 - (i) less than 150 metres (492 feet) from an existing access on the same side of the road;
 - (ii) less than 150 metres (492 feet) from a bridge;
 - (iii) less than 150 metres (492 feet) from an at-grade railway crossing.
- (d) Separation between existing driveways/accesses located on all County arterial roads shall be considered prior to approval of any new subdivision or development permit proposed to access these roads.

SECTION 3: GENERAL PROVISIONS FOR ALL DISTRICTS

- (e) On all County arterial roads and secondary roads, there shall be no more than three lots per section with direct driveway access to such roads.
- (f) No person shall erect any building or structure in any district unless such building or structure is set back from all roadways in accordance with the following roadway classifications and corresponding minimum setback distances:

Primary Highway/Secondary Road	40 metres
Municipal Road	30 metres
Internal Subdivision Road/Service Road	as per District regulations

Those roads designated as Primary Highway, Secondary Road, and Municipal Road are identified on Schedule "B" of this By-law.

- (g) All developments may require a permit from Alberta Transportation or its successors.
- (h) Where a planting and/or establishment of trees adjacent to any municipal road for a shelterbelt, hedge or similar purpose is intended, a minimum

setback of 8 metres (25 feet) from the nearest property line of the roadway right-of-way shall be required.
- (i) Municipal road setbacks shall not apply to portable storage granaries located along a municipal road unless the portable storage granaries are located within a curve or near an intersection.

14. MOVED-IN BUILDINGS

- (a) All moved-in buildings are to be considered as discretionary uses. Any of these buildings that are to be used on a site as a principal or accessory use shall require an application for a development permit. The application shall:
 - (i) provide photographs of the building showing each elevation and the general condition of the building;
 - (ii) state the present location and use of the building.
- (b) The Development Authority may require the applicant to provide a performance bond to ensure completion of any renovations set as a condition of approval of a development permit for a moved-in building.

15. ILLUMINATION

- (a) Any outdoor lighting for any development shall be located and arranged so

SECTION 3: GENERAL PROVISIONS FOR ALL DISTRICTS

that no direct rays of light are directed at any adjoining properties, interfere with the use and enjoyment of neighbouring lands, or interfere with the effectiveness of any traffic control devices. Lighting fixtures, which are not public uses and which are designed for exterior illumination, shall be installed with the light directed and deflected away from public roads.

- (b) Lighted fixtures that are not for public purposes shall not be more than 9.0 metres (30 feet) above finished grade.

16. LANDSCAPING AND SITE DESIGN

- (a) In addition to Section 2(7)(f) regarding site plan submissions, a more detailed landscape plan shall be required for a required landscape area in excess of 500 m² (5,385 ft²) on multi-family residential (three dwelling units or more), commercial, industrial, and institutional sites. For required landscaped areas less than 500 m² and for residential sites with less than three dwelling units, the applicant may incorporate the required information on the site plan in accordance with Section 2(7)(f). The detailed landscape plan and site plan shall include adjacent boulevards and reserve lands, and shall provide the following information:
 - (i) common botanical names;
 - (ii) location of trees and shrubs;
 - (iii) number of trees and shrubs;
 - (iv) landscape details specifying the mixture of coniferous and deciduous trees and shrubs designed to provide landscape enhancement for year round effect; and
 - (v) required landscaped areas not covered by seed/sod which may include, in combination with shrubs/flowers, any or all of the following:
 - a. Mulch Beds consisting of landscaping fabric and mulch with a minimum depth of 5 cm (1.97 in);
 - b. Rip-Rap” Rock Beds consisting of landscaping fabric and rock with a diameter of not less than 10 cm (3.94 in);
 - c. “Crushed Rock” consisting of landscaping fabric and rock with a diameter of 2.5 cm (0.98 in) or less;
 - d. Paving Stones/Stamped Asphalt or Concrete for walkways, outdoor eating areas, and parking lots may be considered for up to 50% of the required landscaped area; or
 - e. Raised Planters constructed with concrete, concrete blocks or wood with a height of not less than 0.6m or flower boxes attached to the building/structure.

SECTION 3: GENERAL PROVISIONS FOR ALL DISTRICTS

- (b) The Development Authority may require that the landscape plan be prepared by a landscape architect or technologist;
- (c) Any portion of a site area not occupied by buildings, driveways, loading areas, or parking areas shall be landscaped or maintained in its natural state;
- (d) All landscaped areas shall be designed to facilitate effective surface drainage;
- (e) Trees shall be provided at the rate determined by the Development Authority, but shall not exceed one tree for every 50 m² of the required landscaped area. A minimum of one coniferous tree shall be planted for every two deciduous trees. Shrubs shall be provided at the rate determined by the Development Authority, but shall not exceed four shrubs for every 100 m² of the required landscaped area. A minimum of one coniferous shrub shall be planted for every two deciduous shrubs. Minimum tree size specifications at the time of planting shall be:
 - (i) Coniferous – 1.8m high;
 - (ii) Deciduous – 5 cm Caliper at 0.45m above ground level;
 - (iii) Coniferous shrubs – 0.35m high; and
 - (iv) Deciduous shrubs – 0.6m high.
- (f) Notwithstanding anything to the contrary in Section 3(16)(e), multi-family residential sites may be landscaped as follows:
 - (i) 10% of the area with one tree/50 m² and four shrubs/100 m²; and,
 - (ii) Balance of the site not covered by buildings or parking with one tree or four shrubs /150 m².
- (g) All plants used shall be listed in the Alberta Horticultural Guide and shall be tolerant to Zone 2B and to specific site location factors (i.e. sun, excessive wind, shade, road salt).
- (h) If a landscaped area is required adjacent to a boulevard, the tree species and planting shall be similar to, or complement, the boulevard trees.
- (i) Notwithstanding anything to the contrary in Section 3(16)(e), if a landscaped screening buffer is required adjacent to a residential use, the landscaped buffer:
 - (i) shall be a minimum of 4.5m in width;
 - (ii) shall include a mix of deciduous and coniferous trees with at least 60% of these trees being coniferous;
 - (iii) shall include trees which are at least 6m high at maturity; and
 - (iv) may include shrubs in addition to trees provided that the shrubs are at least 1.8m high at maturity.

SECTION 3: GENERAL PROVISIONS FOR ALL DISTRICTS

- (j) An at grade, off street parking lot sized to accommodate more than 25 vehicles shall provide dispersed landscaped areas within the interior of the parking area to give visual relief and break up large areas of parking into smaller cells. The landscaping treatment shall be in the form of:
 - (i) landscaped islands;
 - (ii) tree lines separating facing rows of parking stalls; or
 - (iii) some combination of forms.
- (k) Perimeter landscaping is required within required front yards and, in the cases of corner lots and through lots, within the yards located adjacent to the other roadways in all multi-family residential, commercial and industrial districts along a public roadway (other than a lane) or adjacent to a public use site. The landscape area shall be at least 3 metres wide, and:
 - (i) Deciduous trees, shall be planted at regular intervals;
 - (ii) Coniferous trees, shall be planted in clusters of three;
 - (iii) All trees must be at least 1.8m from the property line and at least 6 m high at maturity.
- (l) The applicant shall, as a condition of development permit approval, provide to the County either cash or an irrevocable Letter of Credit equal to 100% of the estimated landscaping costs. The amount shall be based on the average of up to three quotes or the costs estimated by the Development Authority and shall include the costs of the following items:
 - (i) Rough grading of landscaped area;
 - (ii) Minimum of 10cm of topsoil and sod/seed;
 - (iii) Cost of trees/shrubs; and,
 - (iv) Minimum of 15 cm of concrete or wooden curbing separating landscaped areas and parking areas.
- (m) Pursuant to Section 3(16)(l), the conditions of security shall be:
 - (i) 50% of the cash or Letter of Credit to be released upon issuance of a construction completion certificate with respect to the landscaping;
 - (ii) The balance of the cash or Letter of Credit to be released as provided in Section 3(16)(n);
 - (iii) If a tree does not survive the maintenance period, the applicant shall replace it with a tree of similar size and type; and,
 - (iv) If the landscaping is not completed within two years of the date the development permit is issued, then the cash or proceeds of the Letter of Credit shall be used by the County to undertake the landscaping. If such amount shall be insufficient to cover the cost of the work the deficiency shall be a debt due from the developer to the County.

SECTION 3: GENERAL PROVISIONS FOR ALL DISTRICTS

- (n) The cash or Letter of Credit shall be released to the developer, upon written request, once an inspection of the site demonstrates to the satisfaction of the Development Authority that the landscaping has been well maintained and is in a healthy condition one growing season after completion of the landscaping. The inspection shall take place within four weeks of the date of the written request.
- (o) All landscaped areas abutting a public roadway shall be developed in a manner that places the landscaped area between the property line and any fencing erected.

17. DESIGN, CHARACTER AND APPEARANCE OF BUILDINGS AND STRUCTURES

- (a) The quality of exterior treatment and design of all buildings, where development permit approval is required, shall be to the satisfaction of the Development Authority.
- (b) Pursuant to Section 3(17)(a), the Development Authority may consider the following when reviewing development proposals in all Districts:
 - (i) the design, character and appearance of all buildings with respect to their compatibility with any other buildings existing in the vicinity;
 - (ii) the exterior materials to be used to reduce the risks of wildfire damage (Fire Smart); and

18. SIGNS

- (i) the design of the building must be consistent with the purpose of the Land Use District in which it is located.
 - (a) A Development Permit shall be required for all signs.
 - (b) No sign of an advertising, directional or information nature shall be erected on land or affixed to any exterior surface of any building or structure unless the Development Authority has approved an application for this purpose.
 - (c) The applicant for a development permit for a sign shall in no case proceed with the construction, erection, alteration or relocation of such sign until the details, as herein before provided, have been approved and the development permit granted.
 - (d) Signs may also require a permit from Alberta Transportation.

SECTION 3: GENERAL PROVISIONS FOR ALL DISTRICTS

- (e) Notwithstanding the provisions of subsections 3(18)(a) to 3(18)(d) inclusive in this section, the following signs may be erected on land or affixed to the exterior surface of a building or structure without a development permit provided that the sign is not illuminated and that any necessary permits have been obtained from Alberta Infrastructure in accordance with the Highway Development Control Regulations.
 - (i) Temporary political signs, real estate signs, signs announcing any local event of a religious, educational, recreational, or cultural nature, or similar signs of a temporary character not exceeding 1.8 square metres (20 sq. ft.) and limited to one sign per parcel. Any temporary sign installed on a property shall be removed within fourteen (14) days of the termination of the event for which the signs are erected, by the owner of the signs or the owner of the property on which the sign is erected. The Development Officer may have such signs removed or destroyed after the 14-day timeframe.
 - (ii) Advertisements or signs in relation to the function of local authorities, utility boards or other public or quasi-public bodies.
 - (iii) Signs stating the name of any architectural firm, the names of contractors and suppliers, as well as signs advertising the future use of a building may be erected on the site where that building is under construction, and shall be removed immediately after any portion of the said building is occupied.

19. PARKING REQUIREMENTS

- (a) The Development Authority shall require all proponents of development to provide off-street parking and loading facilities in accordance with the location and scale of development proposed. Parking stalls for specific uses shall be provided as listed below in Table 3-1, unless otherwise specified in this Bylaw. For those uses not specifically identified, the Development Authority shall impose such parking standards as deemed appropriate to those specific cases.
- (b) Any parking space or any loading space provided shall be developed and surfaced to the satisfaction of the Development Officer(s) within 12 months of the completion of the development for which the development permit was issued.
- (c) When a building requires parking or loading spaces, the owner of the building shall provide the required parking and loading spaces at or before the time of occupancy of the building.

SECTION 3: GENERAL PROVISIONS FOR ALL DISTRICTS

- (d) Parking areas that are intended for public use shall only be used for the temporary parking of motor vehicles and shall not be used for extended storage of motor vehicles.
- (e) The Development Authority may refuse to grant a development permit to an applicant not fully complying with parking requirements.
- (f) All parking stalls and loading spaces required by this Bylaw shall be located on the same site as the use requiring them, subject to setback and yard requirements.
- (g) All parking spaces, loading spaces, maneuvering aisles and driveways shall be surfaced and maintained to the satisfaction of the Development Authority.
- (h) Driveways intended for two-way vehicle movements shall be at least 9 metres wide.
- (i) Maneuvering aisles and fire lanes shall be at least 7 metres wide.
- (j) Parking stall dimensions shall be 3 metres wide and 6 metres in depth for parking areas with 25 parking stalls or less.
- (k) For parking areas that contain more than 25 parking stalls, the minimum parking stall dimensions may be reduced to no less than 2.7 metres wide and 5.4 metres in depth.
- (l) Driveway widths for residential front yard parking stalls shall not exceed 40% of the total lot frontage at the property line, but in no case shall be less than three (3) metres wide.
- (m) All residential uses shall provide two (2) parking stalls per residential unit unless otherwise specified in this Bylaw.
- (n) Where the calculation of the required number of parking stalls or loading spaces results in a fraction number of parking spaces, the next higher number shall be applied (e.g. if 2.1 parking stalls are calculated, 3 parking stalls are required).
- (o) Parking stall requirements for uses other than those set out in this Section shall be determined by the Development Authority, having regard to similar uses for which specific parking stall requirements are set. To facilitate the determination of parking requirements, a parking assessment prepared to a professional standard acceptable to the Development Officer, may be required to document the parking demand and supply characteristics associated with the proposed development. The County shall not be bound by any recommendations of such a parking assessment.

SECTION 3: GENERAL PROVISIONS FOR ALL DISTRICTS

- (p) If a development falls within two or more of the categories listed in this Section, it shall comply with all parking regulations applicable to all of the categories.
- (q) All parking stalls abutting to or having access to a paved street shall be paved.

20. LOADING FACILITIES

- (a) A loading space shall be designed and located so that all vehicles using that space can be parked and maneuvered entirely within the bounds of the site before moving onto adjacent streets.
- (b) A loading space shall be a minimum width of 3 metres and minimum depth of 9 metres and maintain a minimum overhead clearance of 4.3 metres.

SECTION 3: GENERAL PROVISIONS FOR ALL DISTRICTS

- (c) The Development Authority, having regard to the types of vehicles that are likely to use the loading space, may change minimum loading space dimensions.
- (d) Loading space requirements shall be determined by the Development Authority.

21. CORNER SITES (SIGHT TRIANGLES)

No person on a corner site in any Hamlet Residential District, Rural Residential District, Rural Estate District, or Country Residential District shall erect, place or

maintain, within a triangle formed by the boundaries of the site common with the streets abutting them and a straight line connecting points on each of the said boundaries a distance 7.6 metres from the point where they intersect, a wall, fence, shrub, trees, hedge or any object over 1 metre in height above the lowest street grade adjacent to the intersection (see diagram).

22. RELIGIOUS ASSEMBLY/PLACES OF WORSHIP (CHURCHES)

- (a) The site upon which a religious assembly is situated shall have frontage of not less than thirty (30) metres and an area of not less than 929 square metres.
- (b) In the case where a manse, rectory, parsonage or other building that is accessory to a religious assembly (eg. A minister's residence), is to be erected on the same site as the place of worship, the combined area of the site shall not be less than 1858 square metres (20,000 square feet).
- (c) The front, side and rear yard setbacks in the case of a religious assembly site shall be those permitted within the district in which such site is located.

23. MANUFACTURED HOMES

- (a) In those districts where manufactured homes are identified as a permitted or discretionary use, these homes must be placed either on screw piles and shall

SECTION 3: GENERAL PROVISIONS FOR ALL DISTRICTS

be skirted with material similar in design and material to the rest of the structure, or on a permanent concrete foundation.

- (b) Manufactured homes may be permitted for temporary periods not exceeding a one-year period where it is to be used as a temporary dwelling while a main building on the property is actually under construction.
- (c) Where a person proposes to extend the temporary period beyond the time set out in the permit, he shall not later than sixty days prior to the day on which the development permit will cease to be in effect make written application to the Development Authority for renewal of the permit setting forth the reasons therefore.

24. DUGOUTS

All dugouts shall be set back a minimum of thirty (30) metres from any lot line.

25. WASTEWATER TREATMENT FACILITIES

- (a) The subdivision of land for a residential use, school, hospital or food establishment will not be permitted within 300 metres of an operating wastewater treatment plant.
- (b) Development permits of schools, hospitals, food establishments or a residential use will not be approved within 300 metres of an operating wastewater treatment facility.
- (c) The subdivision of land for a wastewater treatment facility will not be permitted within 300 metres of any school, hospital, food establishment or a residential use.
- (d) A development permit for a wastewater treatment facility will not approved within in 300 metres of any school, hospital, food establishment or residence.

26. LANDFILL AND WASTE SITES

The subdivision of land for a residential use, school, hospital or food establishment will not be permitted within 450 metres of an operating landfill or hazardous waste management facility or dry waste site.

Development permits for schools, hospitals, food establishments or any residential use will not be approved within 450 metres of an operating landfill or hazardous waste management facility or dry waste site.

The subdivision of land for a landfill, hazardous waste management facility or dry

SECTION 3: GENERAL PROVISIONS FOR ALL DISTRICTS

waste site will not be permitted within 450 metres of any residential use, school, hospital or food establishment.

A development permit for a landfill, hazardous waste management facility or dry waste site will not be approved within 450 metres of any residential use, school, hospital or food establishment.

27. METRIC (IMPERIAL) MEASURE

Where imperial measure is identified in this By-law, it is for reference only for the convenience of the reader. For any conflict between metric measure and imperial measure as contained in this By-law, metric measure shall take precedence and be considered the accurate standard by which to assess District Requirements.

28. CANNABIS PRODUCTION AND/OR DISTRIBUTION:

1. Any CANNABIS PRODUCTION AND/OR DISTRIBUTION facility should not be located less than 500 m from any of the following uses:
 - a. The lot boundary of a provincial health care facility, health service, or health clinic.
 - b. The lot boundary of a building containing an elementary school, secondary school, or licensed day care facility.
 - c. The lot boundary of a parcel of land that is designated as school reserve or municipal and school reserve under the Municipal Government Act.
 - d. The lot boundary of a commercial recreation facility, indoor recreation facility, outdoor recreation facility, park or recreational use (intensive or extensive).
 - e. The Municipal Planning Commission may reduce the separation distance where it is demonstrated that there would be no adverse land use impacts and the intent of the regulation is not compromised.
2. Any CANNABIS PRODUCTION AND/OR DISTRIBUTION facilities should not be located less than 100 m from a Residential District. For the purposes of this subsection only:
 - a. The 100 m separation distance shall be measured from the closest point of the lot boundary of the CANNABIS PRODUCTION AND/OR DISTRIBUTION Use to the closest point of the residential district boundary.
 - b. The Municipal Planning Commission may reduce the separation

SECTION 3: GENERAL PROVISIONS FOR ALL DISTRICTS

distance where it is demonstrated that there would be no adverse land use impacts and the intent of the regulation is not compromised.

29. CANNABIS RETAIL SALES

1. Any CANNABIS RETAIL SALES should not be located less than 500 m as measured from the boundary of the parcel from which a CANNABIS retail store is located to any of the following uses:
 - a. The lot boundary of a provincial health care facility, health service, or health clinic.
 - b. The lot boundary of a building containing an elementary school, secondary school, or licensed day care facility.
 - c. The lot boundary of a parcel of land that is designated as school reserve or municipal and school reserve under the Municipal Government Act.
 - d. The lot boundary of a commercial recreation facility, indoor recreation facility, outdoor recreation facility, park or recreational use (intensive or extensive).
 - e. The Municipal Planning Commission may reduce the separation distance where it is demonstrated that there would be no adverse land use impacts and the intent of the regulation is not compromised.
2. Any CANNABIS RETAIL SALES should not be located less than 100 m from any other CANNABIS RETAIL SALES. For the purposes of this subsection only:
 - a. The 100 m separation distance shall be measured from the closest point of the lot boundary of the CANNABIS RETAIL SALES Use to the closest point of the lot boundary of any other approved CANNABIS RETAIL SALES Use.
 - b. The Municipal Planning Commission may reduce the separation distance where it is demonstrated that there would be no adverse land use impacts and the intent of the regulation is not compromised.
3. Any CANNABIS RETAIL SALES should not be located less than 100 m from a "RETAIL STORE, LIQUOR". For the purposes of this subsection only:
 - a. The 100 m separation distance shall be measured from the closest point of the lot boundary of the CANNABIS RETAIL SALES Use to the closest point of the lot boundary of the "RETAIL STORE, LIQUOR".

SECTION 3: GENERAL PROVISIONS FOR ALL DISTRICTS

- b. The Municipal Planning Commission may reduce the separation distance where it is demonstrated that there would be no adverse land use impacts and the intent of the regulation is not compromised.

Retail (liquor)	-	-	-	100	-	-	-

31. VARYING CANNABIS SEPARATION DISTANCES:

1. In all districts where cannabis retail or cannabis production and/or distribution is allowed, the Municipal Planning Commission may vary the minimum separation distance requirement, provided this does not unduly affect the amenities, use or enjoyment of the site or neighbouring properties, with consideration to the following criteria:
 - a. Determining that the proposed location measured from the boundary of the site is not within 100m of a playground, public or private school, spray or splash park, youth centre, licensed day care/child care facility, social care facility, custodial care facility, clinic, or any place where persons under the age of 18 congregate; and
 - b. Determining if the location will directly interface with pedestrian corridors that connect to a playground, public or private school, spray or splash park, youth centre, licensed day care/child care facility, social care facility, custodial care facility, clinic, or any place where persons under the age of 18 congregate; and
 - c. Determining if the location of the CANNABIS RETAIL SALES use will directly interface with a playground, public or private school, spray or splash park, youth centre, licensed day care/child care facility, social care facility, custodial care facility, clinic, or any place where persons

SECTION 3: GENERAL PROVISIONS FOR ALL DISTRICTS

under the age of 18 congregate.

32. HOME OCCUPATIONS:

1. If the County determines that a Home Occupation development has exceeded beyond the intent and purpose of a home business, the capacity of the site and/or is determined to have an adverse impact on the neighbourhood or adjoining properties, measures shall be undertaken to either direct the home occupation to relocate or, if appropriate, rezone to an appropriate land use designation.
2. Any Home Occupation development permit applications requesting more than two (2) trucks, of any kind, or outdoor storage must include a diagram demonstrating suitable parking and storage area that is shielded from view of the neighbors such that the home occupation will not supersede the primary residential purpose of the lot.
3. The County may reduce the impact on the gravel road network by limiting the distance of a Home Occupation, Major to no more than ½ a mile from pavement.
4. Home Occupation, Minor:
Minor Home Occupations are a permitted use within all districts that allow residential dwelling units and shall comply with the following:

Home Occupation, Minor

5. **SPECIAL REQUIREMENT: CROWN LAND**

Proposed development on Crown land needing a development permit may require authorization or lease arrangements from the appropriate provincial department before issuance of a development permit is considered by the County of Grande Prairie No. 1.

6. **SPECIAL REQUIREMENT: ACCESSORY BUILDINGS AND STRUCTURES AND FARM BUILDINGS**

All accessory buildings and structures and farm buildings shall be set back a minimum distance of 30 m (100 feet) from the front lot line and 15 m (50 feet) from all other lot lines.

7. **SPECIAL REQUIREMENT: CLUSTERED FARM DWELLINGS**

Clustered farm dwellings may be allowed, provided that the Development Authority is satisfied that provision has been made for water supply, sewage disposal, and power to serve all of the dwelling units. The Development Authority may also limit the number of units, and place restrictions on the building size and construction.

8. **SPECIAL REQUIREMENTS: FARMSTEADS, ABANDONED FARMSTEADS AND FRAGMENTED PARCELS**

On any parcel created for farmsteads, abandoned farmsteads or fragmented parcels, minor agricultural pursuits may be allowed, subject to the provisions of Section 5 of the bylaw.

9. **SPECIAL REQUIREMENTS: AGRICULTURAL INDUSTRIES**

Agricultural industrial uses are subordinate to the predominant use of the land for agricultural production. The subdivision of land for small-scale industrial uses shall not be allowed. Industrial uses requiring separate title to a property shall be rezoned to an appropriate industrial district prior to subdivision.

SECTION 4: AGRICULTURAL (AG) DISTRICT

10. **SPECIAL REQUIREMENT: MAXIMUM PARCEL DENSITY**

The maximum number of parcels that will be allowed to be subdivided from a quarter section without rezoning shall be one (1) plus the balance of the quarter section for any or all of the following reasons: farmsteads, abandoned farmsteads, and fragmented parcels. Parcels created for a public use or an institutional use will be exempted from the density calculation. Those parcels subdivided in accordance with this special requirement may later be appropriately zoned by the County as part of regular reviews and updates of the Land Use Bylaw.

11. **SPECIAL REQUIREMENTS: HOME OCCUPATION-AGRICULTURAL**

A home occupation-agricultural shall comply with the following:

- (a) The workplace may be used by no more than two non-resident employees,
- (b) There shall be no generation of vehicular traffic or parking in excess of that which is, in the opinion of the Development Officer, characteristic of the Agricultural district in which it is located,
- (c) Outdoor storage is at the discretion of the Development Officer,
- (d) No more than 3 commercial vehicles to be used in conjunction with the home occupation shall be parked or maintained on the site,
- (e) Any interior or exterior alterations or additions to accommodate the home occupation may be allowed at the discretion of the Development Officer.

SECTION 5: SPECIAL CONSIDERATIONS FOR RESIDENTIAL DISTRICTS

In addition to the General Provisions for all districts outlined in Section 3 and the specific district requirements in each district, the following special provisions will apply to all country residential districts.

1. **“MINOR AGRICULTURAL PURSUITS”**

Minor agricultural pursuits will only be allowed in the following districts: CR-2, CR-4, CR-5 and in conformity with the following:

- (a) Livestock shall be limited to no more than one horse and foal 6 months of age or younger per acre or part thereof, to a maximum of three horses.

2. **VEHICULAR PARKING**

Not more than one commercial vehicle up to 5000 kg Gross Vehicle Weight, shall be parked or maintained on any lot in a country residential district. All vehicles must be parked on the lot. No on-road parking will be allowed.

3. **SITE DEVELOPMENT FOR FIRE PREVENTION**

Prior to issuance of a development permit, proponents may submit a “Fire Prevention Site Plan” to the County’s Fire Prevention Office for comment to allow proponents to improve the safety of new housing in the County to better protect residents from potential forest fires. For example, cedar shakes may not be a suitable roofing material in all parts of the County and would therefore not be recommended in some cases. In addition, it may be prudent for new homes to be setback at least 30 metres from all existing trees and shrubs.

- (b) No accessory building or structure shall be erected in any yard other than the interior side yard or rear yard and shall be no closer to any lot line than 1.2 metres.
- (c) All accessory structures such as patios, porches, additions, and skirtings shall be factory prefabricated units, professionally built, or the equivalent thereof, and so designed and erected as to harmonize with the mobile home or house.
- (d) No single wide or double wide mobile home will be permitted that is older than eight (8) years at the time of application.
- (e) Access to accessory buildings from the back lane will not be permitted.
- (f) No accessory building or structure shall exceed the height of the main structure.

SECTION 15: RURAL RESIDENTIAL MIXED (RR-4) DISTRICT

1. **PURPOSE**

This district is intended to allow for a variety of low density housing styles throughout Clairmont and other hamlets. Development legally approved prior to adoption of this Bylaw but does not conform to these regulations is intended to be legal non-conforming development. Generally, existing development in the County is to be serviced at least by a central or common sanitary sewer system, unless it lies within an Agricultural or Country Residential District. Un-serviced hamlet areas are considered legal non-conforming development. New un-serviced residential development in Hamlets and elsewhere in the County must conform to the standards found in a Country Residential District.

2. **USES**

No person shall use any lot or erect, alter or use any building or structure for any purpose except one or more of the following:

Minimum Landscaped Area:	20%	25%

4. **SPECIAL REQUIREMENTS: SIGNS**

A single park entrance or directional sign may be permitted at the entrance of an industrial park indicating the name and location of the park.

5. **SPECIAL REQUIREMENTS: LANDSCAPING**

Landscaping shall be a special requirement and shall be determined as follows:

- (a) A buffer strip of 15 metres shall be provided along any boundary of this district that is immediately adjacent to a primary or secondary highway or watercourse as well as any Land Use District other than an industrial Land Use District. This buffer strip shall be provided on private lands unless an alternative has been provided as part of the subdivision review process and is acceptable to the Development Authority.
- (b) The minimum landscaped area may be concentrated in the front yards, but additional landscaping may be required in other yards to separate uses or to provide buffers or screening from other uses or roads. All landscaping shall be identified on the site plan.

SECTION 20: COUNTRY INDUSTRIAL (CM) DISTRICT

- (c) Any additional landscaping requirements shall be to the satisfaction of the Development Authority.

6. **SPECIAL REQUIREMENT: SITE PLANS AND DEVELOPMENT AGREEMENTS**

All applications for a development permit shall provide a detailed site plan for the proposed development. The site plan shall include all information identified on 'Form A' and in Section 2.7 of this Bylaw. For those applications approved, the proponents shall enter into a Development Agreement with the County to ensure that the conditions of the Development Permit are fulfilled to the satisfaction of the County.

7. **SPECIAL REQUIREMENT: OUTDOOR STORAGE REQUIREMENTS**

- (a) All outdoor storage areas shall be appropriately fenced and should be concealed from view from the street by the fence or other suitable screening to the satisfaction of the Development Authority.
- (b) All sites abutting residential districts shall be screened from view of the residential district to the satisfaction of the Development Authority.
- (c) All outdoor storage shall be located only to the rear of the main building and shall not be located in the front or exterior side yard.
- (d) All outdoor storage shall be accessory to the main use of the land or main building on the site.
- (e) All outdoor storage shall comply with the yard and setback requirements of this Section.

SECTION 22: LIMITED RURAL INDUSTRIAL (RM) DISTRICT

3. **DISTRICT REQUIREMENTS**

No person shall use any lot or erect, alter or use any building or structure except in accordance with the following provisions:

Minimum Lot Area: Fully serviced lots:	929 m ²
Minimum Lot Area: Un-serviced lots:	1858 m ²
Minimum Lot Width:	30 metres
Minimum Front Yard:	7.5 metres
Minimum Rear Yard:	7.5 metres
Minimum Side Yard:	Discretion of the Development Authority
Maximum Lot Coverage:	50%

4. **SPECIAL REQUIREMENT: ACCESSORY BUILDINGS**

No accessory building or structure shall be erected in any yard other than an interior side yard or rear yard and shall be no closer than one (1) metre to any lot line.

5. **SPECIAL REQUIREMENT: SCREENING AND FENCING**

- (a) All sites abutting a residential district shall be screened from view of residential district to the satisfaction of the Development Authority.
- (b) Outside storage areas, parking area and equipment storage areas shall be screened to the satisfaction of the Development Authority.

6. **SPECIAL REQUIREMENT: LANDSCAPING**

All sites abutting a residential district or facing a public highway shall provide a minimum of ten percent of the site area in the form of landscaping (including the provision of mature trees) to the satisfaction of the Development Authority.

SECTION 23: RURAL LIGHT INDUSTRIAL (RM-1) DISTRICT

1. **PURPOSE**

The purpose of this district is to provide an industrial district that reflects both a rural and urban approach to industrial development. It may be serviced, but is generally characterized by large lots; individual private services; low building to site ratio; large open storage areas; and uses that may be compatible with an urban area, if appropriate buffering and screening is provided around these industrial uses. This district will be used to spot zone individual rural parcels throughout the County, but is primarily to be used to pre-zone new industrial parks in urban or quasi-urban settings. It is generally not intended for application to industrial parks that exist at the time of adoption of this Bylaw.

2. **USES**

No person shall use any lot or erect, alter or use any building or structure for any purpose except one or more of the following:

Permitted Uses

- (a) Agricultural Machinery/Equipment Sales and Service

provided on private lands unless an alternative has been provided as part of the subdivision review process and is acceptable to the Development Authority.

- (b) The minimum landscaped area shall be concentrated in the front yards, but additional landscaping may be required in other yards to separate uses or to provide buffers or screening from other uses or roads. All landscaping shall be identified on the site plan.
- (c) Any additional landscaping requirements shall be to the satisfaction of the Development Authority.

8. **SPECIAL REQUIREMENTS: BUILDING SEPARATION**

There shall be a minimum distance of 45 metres (150 feet) between all buildings within this District.

9. **SPECIAL REQUIREMENT: OUTDOOR STORAGE REQUIREMENTS**

- (a) All outdoor storage areas shall be appropriately fenced and should be concealed from view from the street by the fence or other suitable screening to the satisfaction of the Development Authority.
- (b) All storage sites abutting residential districts shall be screened from view of the residential district to the satisfaction of the Development Authority.
- (c) All outdoor storage shall be located only to the rear of the main building and shall not be located in the front or exterior side yard.
- (d) All outdoor storage shall be accessory to the main use of the land or main building on the site.

10. **SPECIAL REQUIREMENT: STORAGE OF HAZARDOUS GOODS AND MATERIALS**

The storage of hazardous goods and materials may be allowed within the district, at the discretion of the Development Authority. The storage of any hazardous material must be within a wholly enclosed building. All applications for development permits shall clearly indicate if any hazardous material is to be stored on site. The nature and quantity of the hazardous material must be identified. The Development Authority may establish special conditions to govern the safe storage of hazardous materials.

SECTION 26: HIGHWAY INDUSTRIAL (RM-4) DISTRICT

1. **PURPOSE**

The purpose of this district is to provide an industrial district that is located adjacent to a provincial highway and where the intention is to provide a higher level of design standards for properties fronting the highway.

2. **USES**

No person shall use any lot or erect, alter or use any building or structure for any purpose except one or more of the following:

Permitted Uses

- (a) Automotive/Recreation Vehicle Sales and Rental
- (b) Convenience Food Store

3. **DISTRICT REQUIREMENTS**

In addition to the General Land Use Provisions contained in Section 3, the following regulations shall apply to every development in this district.

	Serviced	Un-serviced
Minimum Lot Area:	4000 m ²	10,000 m ²
Minimum Lot Width:	20 metres	50 metres
Minimum Front and Exterior Side Yard:		
(a) Provincial Highways:	40 metres	40 metres
(b) County Secondary Roads:	30 metres	30 metres
(c) All other roads:	15 metres	15 metres
Minimum Rear Yard:	7.5 metres	7.5 metres
Minimum Interior Side Yard:	7.5 metres	7.5 metres
Building Height:	Discretion of the Development Authority	
Maximum Lot Coverage:	50%	40%
Minimum Landscaped Area:	10%	10%

4. **SPECIAL REQUIREMENTS: LANDSCAPING**

Landscaping shall comply with the general landscaping requirements of this Bylaw (Section 3.16) as well as the more specific requirements found in this Section. The focus of the landscaping shall be the front yard but additional landscaping may be required in other yards to separate uses or to provide buffers or screening from other uses or roads. In addition, all areas not covered by buildings and parking

SECTION 26: HIGHWAY INDUSTRIAL (RM-4) DISTRICT

shall be landscaped. Barriers with a minimum height of 15 cm (6 inches) shall be used to protect the landscaping areas. All landscaping shall be identified on the site plan.

5. **SPECIAL REQUIREMENT: BUILDING LOCATION AND FRONT YARD**

Notwithstanding any other provision in this Bylaw, the yard of any lot abutting a highway shall be deemed to be the front yard. The front of all buildings should face the front yard. Where, in the opinion of the Development Authority, this is not possible or practical for the effective development of a site, those exterior walls of buildings that must face the highway shall have special facade treatment. This treatment shall be to the satisfaction of the Development Authority.

6. **SPECIAL REQUIREMENT: SITE PLANS AND DEVELOPMENT AGREEMENTS**

All applications for a development permit shall provide a detailed site plan for the proposed development. The site plan shall include all information required on 'Form A' and in Section 2.7 of this Bylaw. In addition, the application shall include a rendering of the proposed development, a description of the external building material, colour of said material, and proposed fencing material. For those applications approved, the proponents shall enter into a Development Agreement with the County to ensure that the conditions of the Development Permit are fulfilled to the satisfaction of the County.

7. **SPECIAL REQUIREMENT: STORAGE AREAS**

All outdoor storage areas shall be appropriately fenced or screened and should be concealed from view from the street by the fence or other suitable screening. All sites abutting residential districts shall be screened from view of the residential district to the satisfaction of the Development Authority.

All outdoor storage shall be located only to the rear of the main building and shall not be located in the front or exterior side yard.

All outdoor storage shall be accessory to the main use of the land or main building on the site.

8. **SPECIAL REQUIREMENT: PARKING AND ACCESS**

Further to the parking requirements found in Section 3 – General Regulations, all required parking, circulation, and access areas shall be paved with a hard,

SECTION 26: HIGHWAY INDUSTRIAL (RM-4) DISTRICT

durable, weather resistant surface. The Site Plan shall clearly illustrate the parking areas, spaces, and traffic circulation on site as well as access to the site.

9. **SPECIAL REQUIREMENTS: SIGNS**

In addition to the regulations governing signs found in Section 3, a single park entrance or directional sign may be permitted at the entrance of an industrial park indicating the name and location of the park. Other requirements for signs shall be determined at the discretion of the Development Authority.

10. **SPECIAL REQUIREMENT: STORAGE OF HAZARDOUS GOODS AND MATERIALS**

The storage of hazardous goods and materials may be allowed within the district. The storage of any hazardous material must be within a wholly enclosed building. All applications for development permits shall clearly indicate if any hazardous material is to be stored on site. The nature and quantity of the hazardous material must be identified. The Development Authority may establish special conditions to govern the safe storage of hazardous materials.

SECTION 27: EXTRACTIVE INDUSTRIAL (EX) DISTRICT

1. **PURPOSE**

This District is to provide primarily for long term mining of aggregates (sand and gravel) in the County.

Required Yards Minimum:	
(a) Front Yard Depth:	18 metres
(b) Exterior Side Yard Width:	18 metres
(c) Interior Side Yard Width:	15 metres
(d) Rear Yard Depth:	15 metres
Minimum Landscaped Area:	10%
Open Storage:	Any part of any lot used as a permitted open storage area shall be fenced.

SECTION 27: EXTRACTIVE INDUSTRIAL (EX) DISTRICT

4. **SPECIAL REQUIREMENTS: LANDSCAPING**

The focus of the landscaping shall be the front yard but additional landscaping shall include no less than a 10 metre ***planting strip*** along lot lines adjacent to public roads and other land use districts to provide buffers or screening from other uses or roads. All landscaping shall be identified on the site plan.

5. **SPECIAL REQUIREMENT: SITE PLANS AND DEVELOPMENT AGREEMENTS**

All applications for a development permit shall provide a detailed site plan for the proposed development. The site plan shall include all information identified on 'Form A' and Section 2.7 of this Bylaw. For those applications approved, the proponents shall enter into a Development Agreement with the County to ensure that the conditions of the Development Permit are fulfilled to the satisfaction of the County.

SECTION 28: RURAL INDUSTRIAL-DIRECT CONTROL (RM-DC) DISTRICT

1. **PURPOSE**

The purpose of this district is to establish rules and regulations for industrial operations that have significant potential impacts on adjacent lands and land uses.

2. **USES**

No person shall use any lot or erect, alter or use any building or structure for any purpose except one or more of the following:

Discretionary Uses

- (a) Accessory Buildings and Structures

- (s) Temporary Work Camp (***Bylaw no.: 2680-05-040***)
- (t) Utilities

SECTION 28: RURAL INDUSTRIAL-DIRECT CONTROL (RM-DC) DISTRICT

3. **DISTRICT REQUIREMENTS**

In addition to the General Land Use Provisions contained in Section 3, the following regulations shall apply to every development in this district.

Minimum Lot Area:	4 ha
Minimum Lot Width:	100 metres
Maximum Lot Density:	At the discretion of the Development Authority.
Minimum Front Yard:	30 metres
Minimum Rear Yard:	30 metres
Minimum Side Yard:	30 metres
Maximum Height:	At the discretion of the Development Authority.
Minimum Landscaped Area:	10%

4. **SPECIAL REQUIREMENT: BUILDING HEIGHT**

Building height shall be at the discretion of the Development Authority.

5. **SPECIAL REQUIREMENT: LANDSCAPING**

Further to the landscaping requirements found in Section 3 – General Regulations, landscaping shall be a special requirement and shall be determined as follows:

- (a) A buffer strip of 30 metres shall be provided along any boundary of this district that is immediately adjacent to a primary or secondary highway or watercourse as well as any Land Use District other than the RM-1, RM-2, RM-3, and RM-4 Land Use Districts, as well as any other RM-DC District. This buffer strip shall be provided on private lands unless an alternative has been provided as part of the subdivision review process and is acceptable to the Development Authority.
- (b) The minimum landscaped area shall be concentrated in the front yards, but additional landscaping may be required in other yards to separate uses or to provide buffers or screening from other uses or roads. All landscaping shall be identified on the site plan.
- (c) Any additional landscaping requirements shall be to the satisfaction of the Development Authority.

6. **SPECIAL REQUIREMENT: STORAGE AREAS**

All storage, freight or trucking yards shall be enclosed or completely screened by buildings, trees, landscaping features or fences or a combination of all to the satisfaction of the Development Authority.

7. **SPECIAL REQUIREMENT: SIGNAGE**

A single entrance or direction sign may be permitted by the Development Authority.

	Dwelling, Single Detached	2 ½ Storeys or 10.5 m
	All other Dwelling Uses	3 Storeys or 12.0 m
	A maximum differential of one Storey allowed between adjacent sites.	
Density:	30 units per net hectare (minimum)	
	55 units per net hectare (maximum)	
Site Coverage:	Row Housing	65%
	All other development	50%
Amenity Area:	7.5 m ² per Dwelling for Duplexes and Row Housing for private outdoor Amenity Area	
	7.5 m ² per Dwelling for Multi-Attached Dwellings for either private outdoor or common Amenity Area	

* subject to regulation in subsection 4

- (a) The common Amenity Area may consist of a single, distinct area or be divided into multiple areas. The Amenity Area shall include outdoor open space that provides an adequate area for unstructured passive or active recreation to the satisfaction of the Development Officer, as well as two or more of the following:

SECTION 36: MEDIUM DENSITY RESIDENTIAL (MDR) DISTRICT

- (i) Playground equipment;
 - (ii) Benches, picnic tables or other seating;
 - (iii) A gazebo or other shelter;
 - (iv) A patio;
 - (v) Courtyards;
 - (vi) Gardens; or
 - (vii) Other recreational or amenity uses that would meet the needs of the residents for the specific development under consideration.
- (b) Row Housing shall be developed:
- (i) on its own block face;

Maximum 4 dwellings per building shall be permitted; up to 6 dwellings per building shall be discretionary.

4. **SPECIAL REQUIREMENTS**

- (a) No accessory building or structure shall exceed the height of the main structure.
- (b) Front yard for condominium land units may be measured from the edge of asphalt of a condominium road.
- (c) Servicing will occur in the lane right-of-way on all laned housing products.
- (d) All dwelling units in this district require access from the back or rear of the unit, preferably at grade.
- (e) Builders should require fencing, planting and/or landscaping elements to separate rear parking pads from each other but may not be built within 1.5 metres of rear lot line.
- (f) Secondary Suites are not permitted except under the discretionary housing type, Dwelling Unit, Single Detached.

SECTION 37: DESIGN GUIDELINES MEDIUM DENSITY RESIDENTIAL (MDR) DISTRICT

1. **PURPOSE**

The purpose of these standards is to illustrate architectural and site planning criteria to ensure that buildings in the Medium Density Residential District provide a high standard of urban design and add to the aesthetic of the neighbourhood.

2. **BUILDINGS**

Building Elements

- (a) Buildings should include the following design elements to reduce the perceived mass and add architectural interest:
 - a. The use of recessions and projections, such as porches, by windows and entrance features; and
 - b. The use of a variety of exterior building cladding and materials.
- (b) Building components such as windows, doors, trim, columns, balconies, stairs, and roofline features should be in proportion to one another and to the overall mass of the building.
- (c) Roofs:
 - a. The roof line of buildings should consist of sloped roofs of varying pitches which may be finished in any combination of metal, wood shakes, asphalt shingles, clay tiles, or roof materials having a similar texture and appearance OR flat roofs where they are concealed by parapet walls that include articulation and use of design elements that are in harmony with the principal architectural theme.
- (d) Entrances:
 - a. The principal entrance of each Duplex Dwelling, Semi-detached Dwelling, Row Housing, and Multi-attached Dwelling should front onto a public roadway other than a lane. Access to each dwelling unit may be provided only from the rear of the unit.

Building Façade / Building Materials

- (a) Architectural treatment of all façades of the building should create a unified building exterior.

SECTION 37: DESIGN GUIDELINES MEDIUM DENSITY RESIDENTIAL (MDR) DISTRICT

- (b) Building façade treatment should wrap around the side of the building to provide a consistent profile when exposed to the street.
- (c) Building façades should include finishing materials and variations that will reduce any perceived mass and linearity of large buildings and add architectural interest.

Building Typology

- (a) Semi-Detached Dwelling:

SECTION 37: DESIGN GUIDELINES MEDIUM DENSITY RESIDENTIAL (MDR) DISTRICT

(b) Row Housing

(c) Multi-Unit Dwelling

3. **PARKING AND ACCESS**

- (a) Vehicular access to properties from a public roadway should be restricted to the abutting lanes where available, to preclude breaks in the street façade and strengthen the pedestrian-oriented character of the area. Where there is no abutting lane, vehicular access should be provided from a flanking roadway other than an arterial roadway. Where there is no lane or flanking roadway then the street access should be limited to one access point.
- (b) All on-site parking should be located at the rear of the site.
- (c) To reduce the scale of surface parking and walking distance, parking should be located to the rear and side of buildings, where possible. Parking should not dominate street frontages or access entry areas. Rear yard setbacks are set at a minimum of 6.0 metres, and builders may consider larger setbacks to accommodate larger vehicles.
- (d) Fencing or landscaping should separate parking pads in the rear of laned products. Builders should follow the requirements under the Medium Density

SECTION 37: DESIGN GUIDELINES MEDIUM DENSITY RESIDENTIAL (MDR) DISTRICT

Residential District and may impose their own requirements as part of their architectural controls. Consideration can extend to the area abutting driveways between lots, for further architectural controls to prevent unsightly and unsafe storage.

7. **LANDSCAPING**

- (a) Where a boulevard is located between the sidewalk and a road and has a width of 2 metres or more, deciduous trees should be planted at a spacing of 10 metres where possible or at the discretion of the Development Officer.
- (b) Detached dwellings, Semi-detached dwellings, and Duplex dwellings should provide a minimum of 2 trees per dwelling unit.

SECTION 38: DOWNTOWN MIXED USE (MU1) DISTRICT

Section 38: Downtown Centre Mixed Use District (MU1)

1. SECTION PURPOSE

The regulations contained within this section apply to lands contained within *Overlay Maps 1, 2 and 3* of this bylaw. Where required, specific reference to the corresponding overlay map is made. These regulations contain a combination of land use and traditional zoning controls, along with strong architectural and detailed design requirements, in order to reach the desired form and design objectives of the Clairmont Downtown Area. Used in conjunction with the other applicable development standards of this bylaw, the purpose of this section is to facilitate the achievement of a high quality downtown design, that meets the following design objectives:

- To develop a form which respects the natural elements and inter-relationship with its surrounding environment that creates a unique destination where people want to live, work, and play.
- To develop architectural design that is consistent through the Downtown corridor.
- To develop a modern contemporary architectural design that corresponds with the lake and Main Street design elements.
- To enable both natural and artificial light into public spaces.
- To create visibility between public spaces and the interior and exterior of the buildings.

2. LAND USE AND DISTRICT REQUIREMENTS

2.1 Uses

Intent: The intent of separating the uses between the ground floor and upper floors is to focus the uses that have a strong need for display frontage and interface with the public realm (retail, commercial shops, etc.) to locate along the street frontage, in order to contribute to a sense of character and facilitate increased streetscape activity. The exception to this relates to building envelopes 1, 2 and 14 on *Overlays 1, 2 and 3* where it is acknowledged that the level of interface with the street frontage is not considered as important.

SECTION 38: DOWNTOWN MIXED USE (MU1) DISTRICT

2.2 Building Envelope Areas

Intent: The layout of the Clairmont Downtown is the result of considerable design strategies, focussed on the function of the Main Street and surrounding area for vehicles, pedestrians and cyclists. The location of building envelope areas ensure buildings are located up against the street frontage to maintain a strong connection and symmetry along Main Street. The plan also seeks to provide the opportunity for developers to be creative in their design through enabling the use of space above ground floor over the right of way.

- a. Building development shall only occur within the designated building envelope areas, as indicated on **Overlay Maps 1, 2 and 3**.
- b. Notwithstanding the above statement, developers may apply for a variance to extend the upper floors of buildings outside of a designated building envelope area, up to a maximum of 3.0 metres horizontally, to accommodate architectural features such as overhangs, balconies and protruding rooflines. Applications for variances of this nature shall be evaluated based on the following criteria:
 - I. Preservation of sightlines to the lake;
 - II. Impact of increased shadow into key public areas;
 - III. Materials and design of feature consistent with those outlined within section 4 of this district.
- c. 2.2.b shall not apply to building frontages above the third floor stepback facing the Main Street as indicated in section 2.8.

Example of regulation 2.2.b.

SECTION 38: DOWNTOWN MIXED USE (MU1) DISTRICT

2.3 Development Setbacks

Intent: Buildings along Main Street are expected to be located up to the street frontage to create interaction between the street and the shops while also creating symmetry along the street. To enable design interest and the ability for outdoor eating, the controls also enable the indentation of the buildings slightly off the right-of-way boundary.

Building Frontage Setback:

- a) Building frontages, as identified on **Overlay Map 2** shall have a setback of 0 metres, with an exception of a maximum of 3.0 metres to create architectural variety (articulation), and accommodate street related activities, such as sidewalk cafes, architectural features and landscaping that contribute to the pedestrian oriented character of the area. The tactile surface material of the private land where the indentation occurs shall be the same or similar to the right-of-way sidewalk.
- b) Frontage canopies shall be continuous, through and including the setback areas.

2.4 Subdivision and Development Requirements

Intent: In order to meet the specific design objectives of the downtown area, the layout of roads, accesses, building envelope areas and surface parking areas have been carefully designed and considered. To maintain this vision, subdivision and development applications must clearly demonstrate how the proposal will meet the requirements of the land use district.

SECTION 38: DOWNTOWN MIXED USE (MU1) DISTRICT

As part of any subdivision or development permit application submission for lands contained within the downtown area as indicated on **Overlay Maps 1, 2 and 3**, the applicant is required to demonstrate the following:

- a. That required parking is met either on-site or through an off-site agreement (such as a shared parking and access agreement) accepted by council. Such parking agreement approved by council will be required to be registered against the property(s);
- b. That the building meets all building code requirements relating to boundary lines;
- c. Notwithstanding the above, where an application for the subdivision of lands within the downtown as indicated on Overlay Maps 1, 2 and 3 has been made prior to the construction of any building, the applicant must prepare and submit a concept parking layout for the entire parking area to which it connects to demonstrate how it would integrate with the remaining portion of that parking lot.

2.5 Minimum Height of Ground Floor Levels

Intent: It has been demonstrated that retail sales excel with taller window displays and clear visibility between the pedestrian space and the store. To obtain design consistency along Main Street a minimum ground floor height has been established that has been based on research carried out on retail window frontage.

The height of all ground floor levels (excluding those within building envelope areas 1, 2 and 14 and parkade commercial areas as shown on Overlay Maps 1, 2 and 3) shall be a minimum of 4.6 metres (15 feet), to enable the creation of large-windowed storefronts to maximize light infiltration, promote retail sales and provide clear visibility to the street.

2.6 Balconies

Intent: It is envisaged that the downtown will include residential apartments to enable downtown living. To maintain a level of privacy between residential apartments, and ensure residents have functional outdoor amenity living spaces, providing minimum balcony separation and sizes is a requirement and a standard practice.

a) Minimum Residential Balcony Size

All residential units shall have an outdoor balcony with a minimum area of 7.5 m². Hotels are not required to have a balcony.

b) Building Separation

Where balconies are provided, a minimum building separation of 20.0 metres from the exterior wall (measured from the floor of the unit) shall be required in order to maintain a certain level of privacy. Separation shall be measured from the exterior wall of the buildings.

SECTION 38: DOWNTOWN MIXED USE (MU1) DISTRICT

Minimum building separation where balconies are provided.

Minimum balcony area.

2.7 Vehicular Accesses

Intent: The downtown has been comprehensively planned to maximize the efficient movement of people and vehicles, and has included a detailed concept design of Main Street. This has led to specifically identifying where accesses from the public right-of-way onto adjoining lands will be permitted to appropriately function with the streetscape design.

All vehicular accesses and entrances shall be located as indicated on **Overlay Map 3**. Accesses shall be a maximum width of 8.0 metres;

Access locations identified by the blue arrows, as indicated on Overlay Map 3.

SECTION 38: DOWNTOWN MIXED USE (MU1) DISTRICT

2.8 Multi Storey Building Stepbacks

Intent: The proposed stepback relates to the north side of Main Street and has been established to mirror the scale of the building heights permitted to the south when viewed from a pedestrian perspective. Stepbacks help to mitigate the potential impact that may be created from larger monolithic structures that could undermine the overall character of the Main Street through the dominance of the building.

Buildings above the 3rd floor shall be stepped back a minimum of 3.0 metres.

2.9 Height

Intent: The height regulations have been established to achieve an increased level of density so that the remaining lands outside of the building envelope areas can accommodate the required parking, while maintaining porosity north and south to the lake, and allowing for maximum sunlight exposure based on daily and yearly sun cycles. The massing also enables a level of scaling that transitions to the surrounding lower density areas.

- a) The heights of development within the Building Envelope areas identified on **Overlay Map 2** shall be in accordance with the table below.
- b) Notwithstanding the above statement, developers may apply for a height variance beyond the stated maximum, provided the following criteria are met:
 - Sightlines to the lake are not impeded;
 - The additional building height does not result in shadows that significantly impact surrounding buildings and/or the public realm. There shall be no increase in shadows along Main Street and key public realm open areas;

SECTION 38: DOWNTOWN MIXED USE (MU1) DISTRICT

- The height and massing of the building is consistent in character with the overall downtown area.

Building Site Reference (Overlay Map 2)	Height (Maximum)
1	4 storeys or 18m (59ft)
2	4 storeys or 18m (59 ft.)

22	1 storey or 6m (19.7ft)
23	1 storey or 6m (19.7ft)
24	1 storey or 6m (19.7ft)

2.10 Surface Parking

Intent: For the downtown to function properly overall requires consistency in the location, organization and management of parking throughout the entire downtown area. The design carried out has focused on locating the majority of the parking to the north of Main Street to avoid visual and physical barriers between Main Street, the lake and the active transportation network that connects between both. The controls further seek to incorporate designs that break up the bleakness created by large asphalt parking areas, while taking the opportunity to incorporate low impact design solutions to managing stormwater.

Location: Surface parking development shall only occur within the designated surface parking areas as indicated on *Overlay Maps 1, 2 and 3*.

SECTION 38: DOWNTOWN MIXED USE (MU1) DISTRICT

Shared Parking Agreements: Notwithstanding Section 3(19)(f) of the general regulations of this bylaw, which requires parking and loading stalls to be located on the same site as the use requiring them, surface parking areas within the downtown will be shared among all landowners, through the creation of a shared parking and access agreement.

Number of Parking Stalls: The number of parking stalls required per use shall be in accordance with the General Regulations of this bylaw.

Bicycle parking: Developers shall provide outdoor bicycle parking near building entrances and amenity spaces. Secured internal bicycle parking within parkade structure will be encouraged, as shown in the example to the right.

Example of secured bicycle parking within a parkade.

Landscaping:

A detailed landscaping plan shall be submitted in accordance with Section 3, No. 16 Landscaping and Site Design of the Land Use Bylaw prior to approval of any development permit. This plan shall include details on pedestrian connections, location of landscaped islands, lighting, bicycle parking, as well as the location, size and species of vegetation. All landscaping plans shall be stamped by a professional certified landscape architect.

Landscaping plans for surface parking areas shall incorporate the following:

- Landscaped islands shall be located to limit contiguous parking spaces to a maximum of 20 spaces.
- Where surface parking abuts a public roadway, a 3.0-metre-wide buffer shall separate surface pavement from the road right of way. Trees within this buffer shall be spaced at a minimum of 8.0 metres apart, on centre, as shown in the diagram to the right.

Required parking lot perimeter setback.

Example of bioswale within a parking lot.

SECTION 38: DOWNTOWN MIXED USE (MU1) DISTRICT

- Bioswales and rain gardens should be encouraged in place of landscaped islands within surface parking lots, as shown in the photo, to aid in the reduction of surface water runoff. Vegetation within bioswales shall be selected by a professionally registered landscape architect or technologist.

Lighting: LED lighting is encouraged throughout surface parking areas.

Walking Paths: Dedicated walkways should be designed throughout parking areas to facilitate safe pedestrian movement to buildings, as shown in the photo to the right. Paths shall be landscaped and illuminated.

Example of a landscaped walking path within a parking lot.

2.11 Screening and Fencing

Intent: As part of creating a tidy and desirable downtown it is important that screening is provided for essential supporting needs of the retail area, like loading and waste bin areas, to maintain an overall high level of design for the downtown. Recycling and composting bins are encouraged.

Where required, loading spaces and waste bins shall be screened from view from adjacent sites and public roadways using an architectural screen wall/barrier, or stylized for aesthetic appeal, as shown in the examples below. Frontage materials should consist of wood, concrete, metal, masonry, composite material, or any combination thereof.

Example of metal-screened waste bins.

Example of stylized waste bins for aesthetic appeal.

2.12 Gateway and Entrance Architectural Treatments

Intent: As part of the overall intent of the downtown to create an aesthetically pleasing environment that is functional with its surrounding space, acknowledgement of key entrance points into the downtown, through the use of enhanced architectural features, can create a gateway entrance effect.

SECTION 38: DOWNTOWN MIXED USE (MU1) DISTRICT

Areas identified as “Gateways/Entrances” on **Overlay Map 2** shall be designed using some or all of the following criteria, in order to create a distinguished gateway entrance within the downtown:

- Serve as a focal point that marks a specific place within the downtown (landmark);
- Creates visual interest;
- Varies in façade treatment from adjacent building sides;
- Building corners are highlighted by varying heights, façade plane (architectural protrusions, articulation, etc.);
- Gateways are well-illuminated;
- Landscaping and vegetation are used to create an inviting space;

Entrances to buildings shall be designed as an integral feature of the façade and should:

- Add interest along the street;
- Serve as a focal point;
- Emphasize primary street frontage;

Example of enhanced architectural elements at entrance.

2.13 Frontage Architectural Treatments

Intent: An important part of creating a sense of place includes considering the design of areas where public and private space intersect, in a manner that maximizes form and function. The downtown Main Street design concept incorporates contemporary elements that should be incorporated throughout the building design to create design continuity between public and private space. The following controls include a clear requirement for high quality building materials, in order to aid in the creation of a destination that people want to live, work and play. A key to succeeding in this goal is maintaining rhythm in design materials while enabling the flexibility of the architecture design.

Building frontages identified as “Frontage Architectural Treatment” on **Overlay Map 2** shall be designed in accordance with the following criteria:

2.13.1 Materials not permitted

To achieve a modern contemporary architectural design, certain building materials are favoured over others. The following materials shall not be used:

- Vinyl;
- Stucco;
- Any other materials that do not achieve the modern contemporary design aesthetic consistent with the photos and figures within this bylaw.

SECTION 38: DOWNTOWN MIXED USE (MU1) DISTRICT

2.13.2 Materials Permitted

The following list identifies materials that shall be encouraged in the design and construction of building facades. The photos included illustrate examples of how these materials may be used:

Brushed/Stainless Steel

The silver appearance of stainless or brushed steel works well with water, and can assist with framing a building to look elegant and lite in appearance. It is envisaged that this material would be used for framing and support of glass windows, doors, canopies, balconies or decorative elements of the building as illustrated in the image.

Brushed and Polished Aluminum

Similar to stainless steel, the sleek, modern appearance of polished aluminum can be used as an accent material to enhance architectural appeal.

Example of brushed/polished aluminum and steel

Powder Coated Aluminum and Steel

Powder coated aluminum and steel can create an industrial-contemporary finish that compliments other contemporary materials permitted, primarily as an accent feature, including railings and fences.

Polished Granite and Marble

Polished granite and marble creates a modern appearance, and can also be used as accent features throughout building facades.

Example of polished granite and marble.

Structure Boards

Structure board (like HardiePlank) is a durable, versatile material that can serve as an architectural accent and be finished in various ways to mimic other high quality materials such as wood.

Architectural Concrete

Architectural concrete is another material that can create a bright appearance to the surrounding environment with smooth finishes enhancing a simple and contemporary form to a building. The use of concrete needs to be balanced to avoid over dominating a structure and making it appear heavy in form and size. However, it is an important structural element to a building and, when designed correctly, can be used to frame windows along with breaking up the flatness or mass of a building both vertically and horizontally in subtle approaches.

Example of modern side panelling.

SECTION 38: DOWNTOWN MIXED USE (MU1) DISTRICT

Natural Woods

Contemporary designs can be architecturally enhanced through the incorporation of high quality wood elements to provide contrast in colour to concrete, stainless/brushed steel adding further textural elements. Wood elements within the design context could be used around framing decks, tactile wall changes or the underside of extended canopies or roofs as illustrated.

Anti-reflective Glass

Simplicity of a contemporary building that generates a lite appearance coupled with capitalizing on sunlight into units or offices. Further, at ground level having a visible shop windows for pedestrians to look into enhances the retail opportunity and interface between the public and private spaces. A design element of Crime Prevention Through Environmental Design encourages transparent and visible interface between these spaces. Lighting transcending through the glass further enhances the appearance of the building and lighting of public spaces. Ground floor windows enable retailers to further display their product to the clients and increases the perceived space between the street and the building.

Brick

Brick is a material used in more historic period buildings and it can lead to creating a heavy appearance with the building that is not cohesive with the relationship to the lake and overall design. However, used correctly, brick can add texture and enhance contemporary elements of a new building. An example of this element being used in this context is shown in the following photo.

Example of modern design that utilizes wood panelling, glass and steel elements.

Example of anti-reflective glass storefront.

Example of use of brick.

SECTION 38: DOWNTOWN MIXED USE (MU1) DISTRICT

2.14 Massing and Architectural Rhythm

Building facades above the ground floor shall be designed to create visual interest and a sense of modularity by incorporating architectural variety. Large flat walls with monotonous features shall be avoided. Design methods encouraged to achieve these goals include:

- Use of contrasting colours and materials;
- Incorporating architectural protrusions and pop-outs;
- Designing entrance features that are architecturally distinct from the rest of the façade;
- Incorporating vertical and horizontal visual elements to provide relief along blank facades and define flow separation;
- Horizontal and vertical articulation;
- Protruding rooflines;
- Building step backs;

Example of interesting overall architectural rhythm and massing that uses contrasting colours, materials, protrusions, stepbacks and variety.

Example of architectural variety, use of materials, as well as vertical and horizontal articulation

SECTION 38: DOWNTOWN MIXED USE (MU1) DISTRICT

2.15 Ground Floor Glass Frontage

Intent: Retail studies have indicated that greater window display areas can increase sales as it provides a clear relationship between the sidewalk and the store. This interface is not only important from a retail sales perspective but also in creating a sense of comfort/safety associated with active spaces, for pedestrians.

- a. **Anti-Reflective Glass:** A minimum of 70% of the area of the ground floor façade shall be anti-reflective, non-tinted glass to maximize natural lighting, visibility, encourage a seamless public-private interface, and enable clear retail displays. Refer to “Frontage Architectural Treatment” on *Overlay Map 2*.

Example of configuration of glass frontage.

Example of anti-reflective ground-level storefront facades with a permanent, continuous canopy overhang.

SECTION 38: DOWNTOWN MIXED USE (MU1) DISTRICT

2.16 Canopies

Intent: Canopies along the frontage of buildings not only function in providing pedestrians with shelter from the elements, but also assist with aesthetic appeal and variety by breaking up the massing of the building when viewed from the ground level.

- a) Buildings shall have canopies that extend a minimum of 2.0 metres (6.6ft) over the public right of way from the building facade, to serve as a shelter in order to promote pedestrian and patio use, and improve the interplay between private and public space. Canopies shall have a minimum height of 4.5 metres (14.7 feet), to line up with the top of the first floor.
- b) Canopies shall be continuous across the entire building length.
- c) *Materials Permitted:* Canopies shall be permanent structures protruding from the building façade, and incorporate elements that compliment materials used in the building façade, including glass, steel and architectural wood.

Examples of permanent canopy overhang.

SECTION 38: DOWNTOWN MIXED USE (MU1) DISTRICT

2.17 Exterior lighting:

- a. Exterior lighting shall be designed in accordance with section 3(15) of the general regulations of this Bylaw, in addition to the following criteria:
 - Exterior lighting shall not negatively impact adjacent properties/buildings;
 - Illumination of lighting diverted downwards;
 - LED colour-changing ambient lighting is encouraged to enhance building design elements.

2.18 Rooflines:

Intent: Providing rooflines with interesting angles and projecting edges can contribute to architectural variety and interest, and achieve the overall modern design aesthetic intended for the downtown area.

Rooflines shall be designed to include strong linear elements, with enhancing architectural features such as overhangs, and shall be flat/angled. Rooftop mechanical equipment will be screened from public view.

Example of protruding, pitched roofline.

2.19 Signage

Intent: Signage is an important component of sales for retail stores and attracting customers, however, if signage is not controlled it can clutter spaces and dominate the visual form of an area. Controlled signage seeks to balance the need without undermining the overall urban design being developed in the downtown or adversely impacting potential nearby residents.

2.19.1 General

- In addition to the following signage requirements, all signs shall adhere to the requirements outlined in Section 3 (18) of this bylaw.
- The overall style, materials and aesthetic of the sign should be compatible with the building materials and design of the building frontage, and overall design principles of the downtown.
- No form of signage will be permitted above the ground-floor level.

SECTION 38: DOWNTOWN MIXED USE (MU1) DISTRICT

- Freestanding signs are not permitted (excluding sandwich boards).

2.19.2 Types Permitted:

Fascia Signs

Fascia signs should be placed horizontally above the upper limit of the frontage windows of the ground floor, underneath the canopy. Fascia signs shall have a maximum area of 1.5m².

Hanging Canopy Signs

Hanging canopy signs shall allow for a minimum clearance of 2.5 metres (8.2 feet) with a maximum area of 0.4m².

Window Signs

Window signs with a maximum area of 0.4m² may be considered, provided the sign does not prevent natural light-flow from outside, obstruct pedestrian views into the storefront, or detract from the aesthetic appeal of the storefront.

Projecting Signs

Projecting signs protrude perpendicular from the building façade. These signs shall have a minimum clearance of 2.5 metres (8.2 feet) with a maximum area of 0.4m².

Sandwich boards

Sandwich boards should not exceed 0.6 metres in area, and be located near the business entrance, in a manner that does not obstruct pedestrian traffic.

SECTION 38: DOWNTOWN MIXED USE (MU1) DISTRICT

2.20 Side and Rear Architectural Treatments

Intent: All sides of the building should continue the architectural treatment to compliment the overall building, however, it is recognized that the level of design will likely be significantly less than the buildings that interface with Main Street.

The following design regulations apply to areas identified as “Side and Rear Architectural Treatment” on **Overlay Map 2**:

- a. **Design:** Building side and rear façade treatment materials shall be complimentary with the front façade, to provide a consistent profile when exposed to the street. However, architectural elements required on front facades like canopies and large glass windows are not mandatory.

2.21 Parkades

Intent: Based on the proposed density and required parking it is anticipated that parking structures will be required to meet parking demand. In order to mitigate the potential impact of these unsightly parking structures, cost effective design solutions that compliment or enhance the downtown will be required.

- a. “Parking Garage Architectural Treatments”, as identified on **Overlay Map 2**, require architectural treatments that incorporate one or more of the following visually-appealing components:
- Exterior screening;
 - Silk screening;
 - Modern panelling;
 - Glass;
 - Architectural ornamental lighting/illuminated panelling;
 - LED ambient colour-changing lighting;
 - Opaque glass cladding;
- b. No advertisements shall be incorporated into any façade treatment or screening method.
- c. Pedways should be encouraged to connect parkade structures with buildings fronting onto Main Street.
- d. Parkade structures are encouraged to be heated.
- e. If underground parking is provided that enables the required parking capacity for the downtown

Example of a colourful LED and steel frame facade treatment to a parkade

Example of Pedway.

SECTION 38: DOWNTOWN MIXED USE (MU1) DISTRICT

area to be met without the construction of parking garages, the areas identified as parking garages on Overlay Maps 1, 2 and 3 may be used for surface parking. Surface parking controls would then apply.

2.21.1 Parkade Commercial Area

Intent: Parkades can become an eye sore in an urban landscape that can impact people living in the area or people walking through the downtown. Enabling small retail stores where the parking garages interface with the shared space to provide activity along these frontages is one tool to assist in mitigating their impact.

- a) The ground floor exterior of parkades 4 and 5 facing the Shared Space ROW, identified as “Parkade Commercial Area”, on **Overlay Map 2** shall be designed with small recesses to accommodate retail/commercial space.
- b) Retail/commercial recesses shall be designed to have glass frontages, consistent with the design requirements outlined in Section 2.13 – Frontage Architectural Treatments.

Example of small commercial areas incorporated into the bottom floor of a parkade in Lakewood, Colorado.

2.22 Shared Space

Intent: Shared space encourages the spatial integration of vehicular, pedestrian and cyclist traffic, by removing segregating features (curbs, barriers), pavement markers, reducing speed limits, and allowing a shared use of the right of way surface. The creation of the shared space, as indicated on the **Overlay Maps 1, 2 and 3** will function as a vehicular access for central areas of the downtown, while at the same time creating a unique pedestrian and cyclist promenade that allows users to connect to storefronts, open space, parks and the Lake.

2.22.1 Design:

The following criteria shall be used in the design of the shared space right of way:

- a. *Uniform grade:* No curbs or separation feature resulting in a step-down or change in grade shall be designed into the shared space right of way;
- b. *Surfacing:* Shared space shall have tactile surfaces (stamped pavement, etc.) and incorporate a variety patterns and/or colours.

SECTION 38: DOWNTOWN MIXED USE (MU1) DISTRICT

Examples of shared space.

2.23 Sidewalks Within a Property

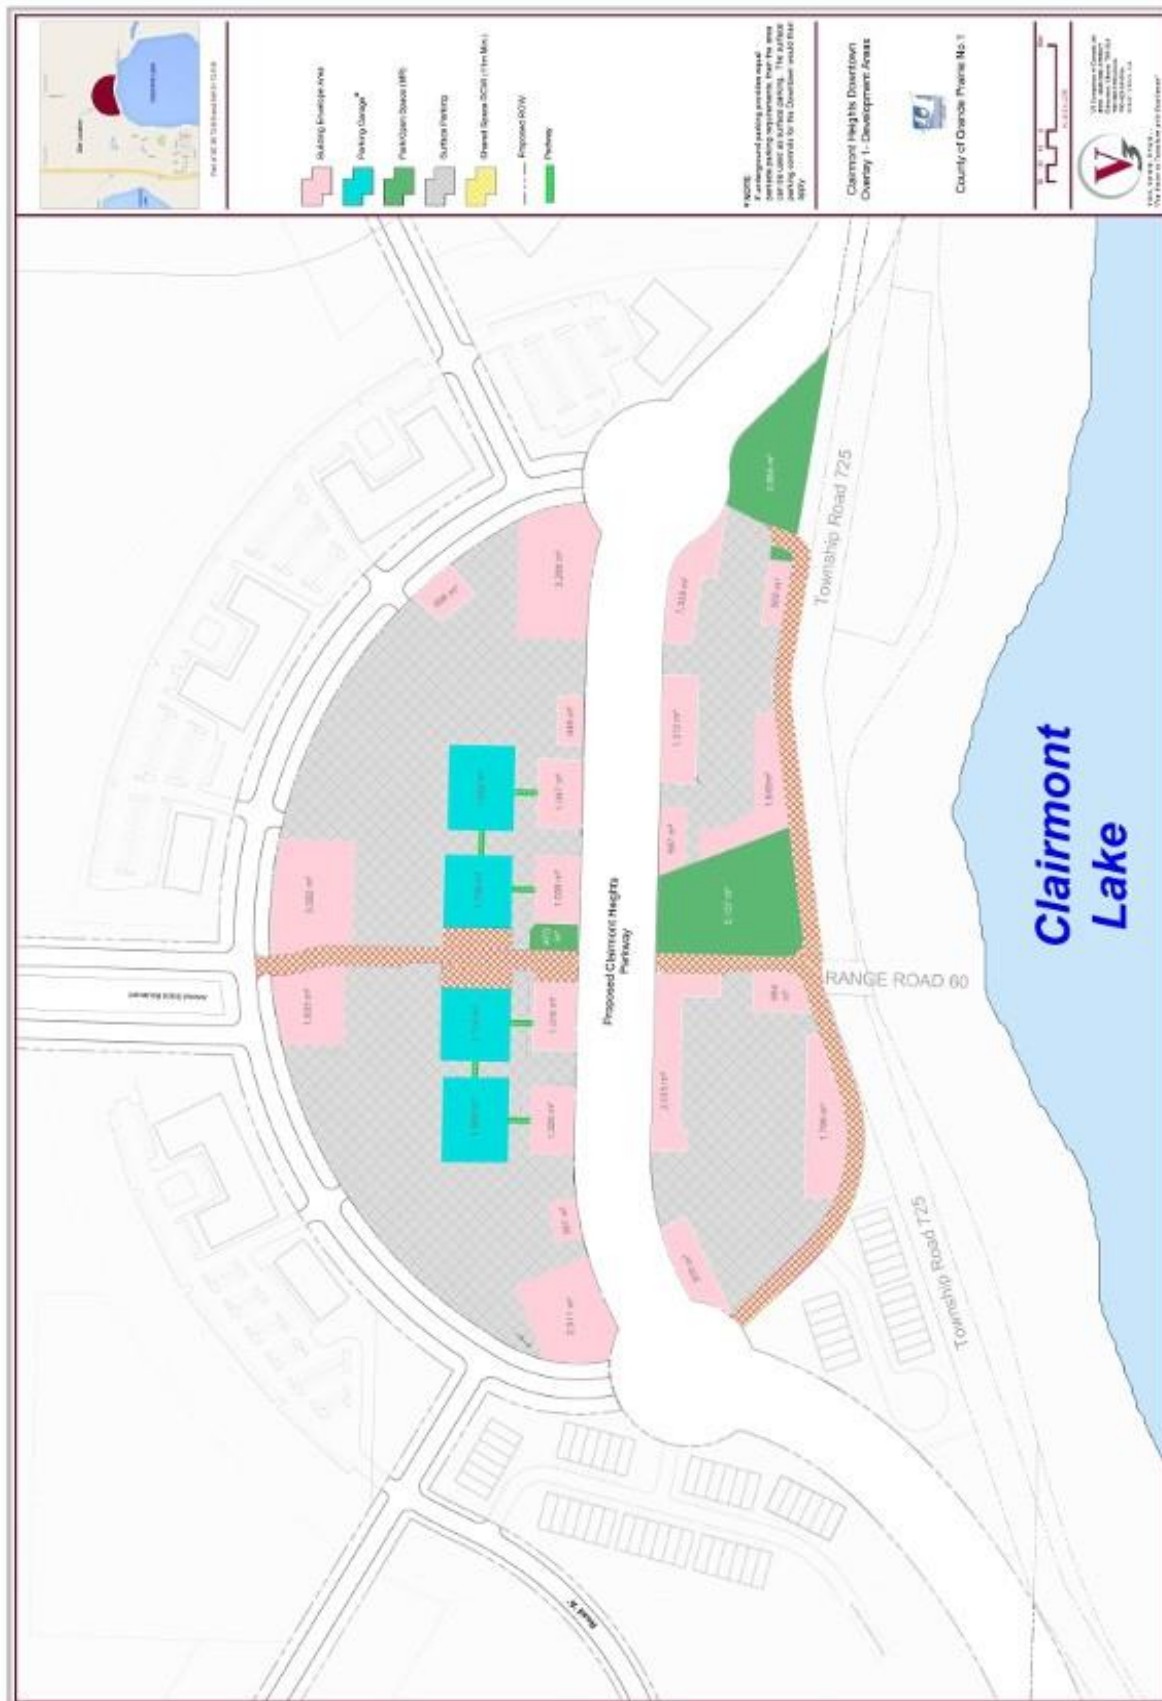

Intent: A key focus on the success of the downtown is its functionality for all forms of transportation movement and therefore it is important that there is recognition of where continued sidewalks from the Main Street through to key destinations is required.

Pedestrian sidewalks shall be built adjoining the perimeter of buildings, as indicated on **Overlay Map 3**. Sidewalks adjoining building sides shall be a minimum of 3.0 metres in width, and sidewalks adjoining building rears shall be a minimum of 1.5 metres in width.

3. SITE PLAN APPROVALS

The site plan, architectural treatment of buildings, provision of landscaped open space, lighting and parking layout and site access shall be subject to approval by the Development Authority.

SECTION 41: GATEWAY COMMERCIAL (GWC) DISTRICT

3. **DISTRICT REQUIREMENTS**

In addition to the General Land Use Provisions contained in Section 3, the following regulations shall apply to every development in this district.

Minimum Lot Area:	½ Acre
Minimum Lot Width:	30 metres
Minimum Front Yard:	12 metres
Minimum Rear Yard:	7.5 metres
Minimum Side Yard:	3 metres
Building Height:	Discretion of the Development Authority.
Maximum Lot Coverage:	40%
Minimum Landscaped Area:	10%

4. **SPECIAL REQUIREMENTS: LANDSCAPING**

Landscaping shall be a special requirement and shall be determined as follows:

- (a) Landscaping shall comply with the general landscaping requirements of this Bylaw (Section 3.16) as well as the more specific requirements found in this Section.
- (b) All areas not covered by buildings and parking shall be landscaped. Protective barriers with a minimum height of 15 cm (6 inches) shall separate all landscaped areas from hard surfaces.
- (c) The minimum landscaped area shall be concentrated in front yards, and exterior side yard but additional landscaping may be required in other yards to separate uses or to provide a buffer or screening from other uses. All landscaping shall be identified on the site plan.
- (d) Any additional landscaping requirements shall be to the satisfaction of the Development Authority.
- (e) Buffer, Fencing, Screening: Shall be consistent with Section 1.7 of the Land Use Bylaw.

5. **SPECIAL REQUIREMENT: STORAGE AREAS**

All storage areas shall be appropriately fenced or screened. All sites abutting residential districts shall be screened from view of the residential district to be consistent with the County Design Standards. All storage shall be accessory to

SECTION 41: GATEWAY COMMERCIAL (GWC) DISTRICT

the main use of the land or main building on the site and shall comply with the yard and setback requirements of this Section.

6. **SPECIAL REQUIREMENTS: ACCESS & PARKING**

Further to the parking requirements found in Section 3.19 – General Regulations, all required parking, circulation, and access areas shall be paved with a hard, durable, weather resistant surface.

7. **SPECIAL REQUIREMENT: BUILDING LOCATION AND FRONT YARD**

Notwithstanding any other provision in this Bylaw, the yard of any lot abutting a highway shall be deemed to be the front yard. The front of all buildings should face the front yard. Where, in the opinion of the Development Authority, this is not possible or practical for the effective development of a site, those exterior walls of buildings that must face the highway shall have special facade treatment. This treatment shall be to the satisfaction of the Development Authority.

8. **SPECIAL REQUIREMENTS: SITE PLAN AND DEVELOPMENT AGREEMENT**

All applications for a development permit shall provide a detailed site plan for the proposed development. The site plan shall include all information required on 'Form A' and Section 2.7 of this Bylaw. For those applications approved, the proponents shall enter into a Development Agreement with the County to ensure that the conditions of the Development Permit are fulfilled to the satisfaction of the County.
