### Policy C27

<b>Policy:</b>	C27 – Financial Reserves and Levies
<b>Policy Department(s):</b>	Financial and Business Planning Services
<b>Adoption Date:</b>	June 27, 2016
<b>Adoption Reference:</b>	CM20160627.1047
<b>Effective Date:</b>	June 27, 2016
<b>Last Amended:</b>	April 13, 2026

## Policy Purpose

To support the County to accomplish three main goals: achieve property tax stability, contribute to the orderly provision of services and accommodate future growth needs.

## Policy Statement

The County will follow set guidelines for the establishment, allocation and target limits of Financial reserves and Levies, and to ensure that these funds are managed prudently and efficiently achieving maximum return of such funds. This will align Reserves with long-term planning and the desire to meet service levels as set by Council.

Financial reserves and Levies are used to ensure financial stability, mill rate stability, risk mitigation, cash flow smoothing, fund large Capital projects, reduce debt dependence, and generate investment income.

## Definitions

"Annual Surplus" means the accumulated excess of revenues over expenditures for the current year.

"Capital" means the acquisition, construction, development, betterment, or replacement of tangible, long-term assets that the municipality owns or controls and are used in the delivery of municipal programs and services over more than one fiscal year. Capital includes expenditure related to land and land improvements, building and facilities, infrastructure, vehicles and machinery.

"Deferred Revenue" means revenue that is considered a liability on the municipality's financial statements, until such time it becomes relevant to current operations, where it is then recognized as revenue in the year the related expense occurred. "Fees" means charges imposed by a municipality under the authority of the Municipal Government Act and authorized by Municipal Bylaw for a specific service, activity, use, or regulatory function provided by the municipality, where the charge is intended to recover all or part of the cost of providing that service or function.

### Policy C27

“Levy” means a financial charge imposed on individuals or entities to generate revenue for a specific purpose or project as defined by the Municipal Government Act and/or Municipal Bylaw.

“Infrastructure” means long term municipal Capital Assets such as roads, bridges, water and wastewater systems and storm systems.

“Reserve” means money set aside for a specific future purpose.

“Target Amount” means the recommended optimal balance for the Reserve.

## Policy Guidelines

1. All Reserve and Levy transactions will be approved by Council motion and subject to applicable bylaws and Municipal Government Act sections.
2. All Reserves and Levies will be administered in accordance with current municipal policies and Public Sector Accounting Standards.
3. All Reserves must fall under operating, capital or growth classifications and include a description. The establishment of a new Reserve will require a classification, description and must be approved by Council.
4. Reserves will be funded from internal and external sources as indicated in the Reserve descriptions.
5. Levies will be collected based on bylaw and/or legislation.
6. Transactions to and from each Reserve will be approved by Council through:
  - 6.1. Existing municipal policies;
  - 6.2. Annual budget process;
  - 6.3. Year-end Reserve request and approval process;
  - 6.4. Approved Reserve and Levy policy description; or
  - 6.5. Council motion.
7. Reserves and Levies collected are not permitted to be in a negative balance unless explicitly stated.
8. Interest earnings will be applied to Reserves which have been deemed interest bearing as indicated in the Reserve descriptions.
9. Reserve levels based on long-range plans to ensure a positive Reserve balance is maintained:
  - 9.1. Fleet 20 years

### Policy C27

- 9.2. Surfaced Roads 20 years
- 9.3. Bridges 75 years
- 9.4. Facilities 50 years
- 9.5. Water and Wastewater Infrastructure 50 years

This is not an all-inclusive list. Plans will be added over time.

#### **Interest**

- 10. Interest earnings will be applied to Reserves when external requirements are imposed by legislation or agreements. Interest will be credited to the Reserves at the end of the year and prior to finalization of the year-end audit.
- 11. The interest is calculated based on the average Reserve balance for the year.
- 12. Annual interest rates on these Reserves are based on the weighted average of interest earned by the County on its long-term investments.

#### **Reporting**

- 13. Reserve funds are held and reported as part of Accumulated Surplus on the Consolidated Statement of Financial Position until utilized.
- 14. Levies are reported as Deferred Revenue and recorded as a liability on the Consolidated Statement of Financial Position until such time as the expenditures which the funds were collected for, have been incurred, in accordance with Public Sector Accounting Standards (PSAS) 3400 Revenue.
- 15. Reporting on Reserves and Levies collected will be presented at annual budget meetings including a summary of each Reserve, committed funds and remaining balance.
