**Note: A swinging walk-in door is required.**

The Foundation:

☐ Compacted granular fill

Please select **one** of the following:

☐ 4" Concrete Slab - thickened on edges (**Maximum 592 sqft without engineering**)

☐ Pile and Grade Beam (**Engineering Required**)

☐ Strip Footing & 4' Pony Wall

Floor Plan /  
Elevations:

This section may be completed if your garage is a typical garage resembling these drawings. If the building does not resemble these drawings, please submit detailed drawings. Note: Floor plan should be at a minimum scale of 1:100.

Left, please complete the following information:

- Provide outside dimensions of building.
- Show all doors and windows.
- Show orientation of trusses.
- Show any interior partitioning, together with a description of the rooms.

Below, please complete the following information:

- Label each elevation (North, South, East, West).
- Show doors and window sizes on all elevations.
- Indicate height of walls.
- Indicate slope of roof (ie. 1 in 3).
